AUTHOR INDEX

VOLUME XX: JANUARY–JUNE

[Numbers in brackets refer to Russian original]

ABRAMOV, A. P.
Nonlinear Quenching of the Luminescence of Ruby under Intense Excitation—N. A. Tolstoi and A. P. Abramov. 20, 187 (1966) [20, 345 (1966)]
On a Possible Theoretical Interpretation of Nonlinear Quenching—N. A. Tolstoi and A. P. Abramov. 20, 273 (1966) [20, 496 (1966)]
On the Binary Centers Produced by Light in Uranyl Salts—N. A. Tolstoi, A. P. Abramov, and I. N. Abramova. 20, 415 (1966) [20, 742 (1966)]

ABRAMOVA, I. N.
On the Binary Centers Produced by Light in Uranyl Salts—N. A. Tolstoi, A. P. Abramov, and I. N. Abramova. 20, 415 (1966) [20, 742 (1966)]

ADRIANOVA, I. I.
Experimental Investigation of the Control of Ruby Laser Generation by Means of Diffraction Modulation with a Traveling Ultrasonic Wave—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 20, 514 (1966) [20, 924 (1966)]

AGEYEVA, N. K.
Method of Preparation and the Luminescence of Cadmium Fluoride Crystals Activated by Rare Earth Ions—N. K. Ageyeva, M. F. Dubovik, Yu. F. Rybkin, S. A. Sazonova, B. S. Skorobogatov, and O. M. Smirnova. 20, 50 (1966) [20, 96 (1966)]

AKHUNDOV, G. A.
The Optical Reflection of Single Crystals of GaS and GaSe—N. A. Gasanova and G. A. Akhundov. 20, 193 (1966) [20, 353 (1966)]

ALEKSANDROV, A. P.
Measurement of the Metastable Level Population of the Working Substance of a Laser—A. P. Aleksandrov, V. N. Genkin, and M. I. Kheifets. 20, 69 (1966) [20, 133 (1966)]

ALFIMOV, M. V.
Determination of the Concentration of Organic Molecules in the Triplet State during Excitation with Fast Electrons—M. V. Alfimov, N. Ya. Buben, A. I. Pristupa, and V. N. Shamshev. 20, 232 (1966) [20, 424 (1966)]

ANANEV, Yu. A.
The Maximum Attainable Resolution of a Real Fabry-Perot Etalon—Yu. A. Ananev. 20, 89 (1966) [20, 168 (1966)]

ANDREEVA, T. L.
The Excitation of Thallium Atoms by Interaction with Ammonia Molecules—T. L. Andreeva, V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 178 (1966) [20, 333 (1966)]

ANDRIYAKHIN, V. M.
Regenerative Optical Helium-Neon Amplifier—V. V. Lebedeva, A. I. Odintsov, I. V. Lebedev, V. M. Andriyakhin, E. S. Gudovich, and I. P. Ponomareva. 20, 277 (1966) [20, 501 (1966)]

ANUFRIENKO, V. F.
EPR Study of the Covalent Bond in Cu^{+2} α-Thiopicolinanilide—V. F. Anufrienko and A. P. Zeif. 20, 365 (1966) [20, 652 (1966)]

ARKHANGELSKAYA, V. A.
Reduction of Rare-Earth Ions by Radiation in Fluorite-Type Crystals with Two Activators—V. A. Arkhangelskaya and P. P. Feofilov. 20, 90 (1966) [20, 169 (1966)]

ARKHANGELSKII, G. E.
Two-Quantum Absorption Observed in EPR of the Mn^{2+} Ion in the ZnS-Mn Phosphor—G. E. Arkhangelskii. 20, 284 (1966) [20, 513 (1966)]

BAKHSHIEV, N. G.
Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. XI. Molecular Spectra Corresponding to Different Types of Electronic Transitions—N. G. Bakhshiev. 20, 335 (1966) [20, 594 (1966)]
Relationship Between the Observed and True Absorption Spectra of Molecules in a Condensed Medium. V. Infrared Absorption Bands of Chloroform and Carbon Tetrachloride in Solutions (740–810 cm^{-1})—V. S. Libov, O. P. Girin, and N. G. Bakhshiev. 20, 350 (1966) [20, 623 (1966)]
Universal Intermolecular Interactions and Their Effect on the Positions of the Electron Spectra of Molecules in Two-Component Solutions. XII. The Dependence of the Absorption and Fluorescence Spectra of Phthalimide Derivatives on the Temperature and Aggregation State of the Solvent (+20 to −196°C)—N. G. Bakhshiev and I. V. Piterskaya. 20, 437 (1966) [20, 783 (1966)]
Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. XIII. Physicochemical Properties of Some Molecular Complexes—N. G. Bakhshiev. 20, 542 (1966) [20, 976 (1966)]

BAKHSHIEVA, G. F.
Optical Characteristics of Monocrystals of Lanthanum–Sodium Molybdate—G. F. Bakhshieva, V. E. Karapetyan, A. M. Morozov. 20, 510 (1966) [20, 918 (1966)]

BAKHTIYAROV, V. G.
Determination of the Spectrum of Particles in a Disperse System Using Data on Its Transparency. VI—K. S. Shifrin, A. Ya. Perelman, and V. G. Bakhtiyarov. 20, 386 (1966) [20, 692 (1966)]

BAZHULIN, P. A.
The Effect of the Solvent on the Out-of-Plane Deformation Vibrations of CH in Certain Aromatic Compounds—P. A. Bazhulin and A. V. Chekunov. 20, 238 (1966) [20, 436 (1966)]

BELOPOLSKAYA, T. V.
Study of the Infrared Absorption Spectrum of the Polymer and Monomer of Methacrylic Acid—T. V. Belopolskaya and O. N. Trapeznikova. 20, 133 (1966) [20, 246 (1966)]

BELYAKOV, V. A.
Chemiluminescence in Solutions. III. The Effect of Additives Which Are Distinguished by the Height of Their Electronic Levels—V. A. Belyakov and R. F. Vasilyev. 20, 201 (1966) [20, 365 (1966)]

BELYI, M. U.
Luminescence of Vitreous Halide Solutions Activated by Ions of Different Valence—M. U. Belyi and I. Ya. Kushnirenko. 20, 53 (1966) [20, 101 (1966)]

BETEROV, I. M.
Cross Sections of Inelastic Processes in the Helium-Neon Laser—I. M. Beterov and V. P. Chebotaev. 20, 597 (1966) [20, 1078 (1966)]

BOBOVICH, Ya. S.
Relationship between Certain Spectral Characteristics and the Reactivity of Aromatic Compounds. II. Para-Amino and Para-Bromosubstituted Benzene Derivatives. Monosubstituted Benzene Derivatives—Ya. S. Bobovich. 20, 136 (1966) [20, 252 (1966)]

BOCHKOV, Yu. V.
Ultraviolet Electroluminescence of Zinc Sulfide—Yu. V. Bochkov, A. N. Georgobiani, A. S. Gershun, L. A. Sysoev, and G. S. Chilaya. 20, 100 (1966) [20, 183 (1966)]

BOCHKOVA, O. P.
Investigation of the Luminescence of a Mixture of Zinc and Mercury Vapors in a High-Frequency Discharge. O. P. Bochkova. 20, 497 (1966) [20, 901 (1966)]

BOGDANOVA, I. P.
Study of the Secondary Processes Due to Electronic Excitation Using the Coincidence Count Method—I. P. Bogdanova and V. D. Marusin. 20, 113 (1966) [20, 209 (1966)]

BONCH-BRUEVICH, A. M.
Excited Absorption Spectrum of Ruby—A. M. Bonch-Bruevich, T. K. Razumova, and Ya. A. Imas. 20, 575 (1966) [20, 1040 (1966)]

BORODULIN, V. I.
Resonance Absorption of Radiation in an Inhomogeneous Medium with Variable Sign of the Coefficient of Absorption V. I. Borodulin. 20, 395 (1966) [20, 709 (1966)]

BRISKINA, Ch. M.
On the Mechanism of Sensitizing the Luminescence of Eu^{3+} and Tb^{3+} Ions by Organic Dyes—Ch. M. Briskina, V. F. Zolin, and M. A. Samokhina. 20, 599 (1966) [20, 1081 (1966)]

BROUN, E. B.
Nature of the So-Called Q Branch in the Infrared Spectra of Hydrogen Halides—A. V. Iohanson and E. B. Broun. 20, 21 (1966) [20, 42 (1966)]

BRYTOV, I. A.
Absorption Coefficients of Nitrocellulose and Polystyrene in the 8–410 Å Region of Ultrasoft X-Ray Radiation—A. P. Lukirskii, V. A. Fomichev, and I. A. Brytov. 20, 202 (1966) [20, 366 (1966)]
Photoionization Absorption of Ar, Ze, Alcohol, and Methylal in the 7–44 Å Wavelength Range—A. P. Lukirskii, I. A. Brytov, and S. A. Gribovskii. 20, 203 (1966) [20, 368 (1966)]

BUBEN, N. Ya.
Determination of the Concentration of Organic Molecules in the Triplet State during Excitation with Fast Electrons—M. V. Alfimov, N. Ya. Buben, A. I. Pristupa, and V. N. Shamshev. 20, 232 (1966) [20, 424 (1966)]

BUDAGYAN, I. F.
On a Special Feature of the Application of the WKB Method—D. I. Mirovitskii and I. F. Budagyan. 20, 297 (1966) [20, 528 (1966)]

BUGRIM, D. E.
Excitation Characteristics of the Swann Bands of C_2 in Streams of Vapors of Metals and Organic Compounds—D. E. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 20, 320 (1966) [20, 568 (1966)]

BUINOV, G. N.
Investigations of the Dependence of the Discharge Parameters and Generating Power of the He-Ne Laser on the Hollow Cathode Diameter—V. B. Znamenskii, G. N. Buinov, and E. S. Bursakov. 20, 292 (1966) [20, 522 (1966)]

BULDYREV, V. S.
Application of the Ray Method to the Calculation of the Natural Frequencies of Multiple-Mirror Resonators—V. S. Buldyrev and M. M. Popov. 20, 500 (1966) [20, 905 (1966)]

BULGADAYEV, A. V.
The Dependence of the Infrared Spectra of Thymol on the State of Aggregation—A. I. Mardayeva and A. V. Bulgadayev. 20, 505 (1966) [20, 912 (1966)]

BURLANKOV, D. E.
Measurement of the Amplification Coefficient of an Excited Medium by the Intensity of Luminescence—D. E. Burlankov and A. V. Rezvov. 20, 262 (1966) [20, 481 (1966)]

BURSAKOV, E. S.
Investigations of the Dependence of the Discharge Parameters and Generating Power of the He-Ne Laser on the Hollow Cathode Diameter—V. B. Znamenskii, G. N. Buinov, and E. S. Bursakov. 20, 292 (1966) [20, 522 (1966)]

BURSHTEIN, A. I.
Adiabatic Theory of the Shape of Spectral Lines in Gases in Terms of the Hard Sphere Model—A. I. Burshtein and Yu. I. Naberukhin. 20, 521 (1966) [20, 936 (1966)]

CHAIKA, M.
Determination of the Lifetime of the $2p^53p(2p_4)$ State of Neon—T. Krupenikova and M. Chaika. 20, 604 (1966) [20, 1088 (1966)]

CHAIKO, Yu.
Isotope Shifts of Resonance Lines in the Spectrum of Ytterbium—Yu. Chaiko. 20, 424 (1966) [20, 760 (1966)]

CHASHCHINA, G. I.
Determination of Oscillator Strengths of the Resonance Lines of Xenon—G. I. Chashchina and E. Ya. Shreider. 20, 283 (1966) [20, 511 (1966)]

CHASTOV, A. A.
Q Switching of a Ruby-Laser Resonator with the Aid of Clearing Substances of the Phthalocyanine Series—Yu. M. Gryaznov, O. L. Lebedev, and A. A. Chastov. 20, 278 (1966) [20, 503 (1966)]

CHEBOTAEV, V. P.
The Excitation of Neon Levels in a Neon-Hydrogen Discharge—V. P. Chebotaev. 20, 10 (1966) [20, 21 (1966)]
Distribution of Population Inversion Across an He-Ne Laser Discharge—Yu. V. Troitskii and V. P. Chebotaev. 20, 199 (1966) [20, 362 (1966)]
Excitation of Helium Levels During Optical Pumping—V. N. Lisitsyn and V. P. Chebotaev. 20, 409 (1966) [20, 734 (1966)]
Determination of the $2s_2$ Level Population and the Probability of the $2s_2$–$2p_4$ Transition in Neon—V. I. Donin and V. P. Chebotaev. 20, 414 (1966) [20, 740 (1966)]
Rate and Cross Section of Excitation of the $3s_2$ Level of Neon by $2\,^1S$ Metastable Helium Atoms During Discharges in a He–Ne Mixture—V. P. Chebotaev and L. S. Vasilenko. 20, 505 (1966) [20, 913 (1966)]
On the Competition of Transitions and the Achievement of Laser Action at 6401 Å Without a Dispersing Prism in the Resonator of a He–Ne Laser—L. S. Vasilenko and V. P. Chebotaev. 20, 507 (1966) [20, 915 (1966)]
Cross Sections of Inelastic Processes in the Helium-Neon Laser—I. M. Beterov and V. P. Chebotaev. 20, 597 (1966) [20, 1078 (1966)]

The Generation of Laser Action in the 4f-3d Transitions of Neon by Optical Pumping of a He-Ne Discharge with a Helium Lamp—V. N. Lisitsyn and V. P. Chebotaev. 20, 603 (1966) [20, 1087 (1966)]

CHEKUNOV, A. V.
The Effect of the Solvent on the Out-of-Plane Deformation Vibrations of CH in Certain Aromatic Compounds—P. A. Bazhulin and A. V. Chekunov. 20, 238 (1966) [20, 436 (1966)]

CHELIDZE, T. Ya.
Shadow Projections of a Spark in Air Occurring When Laser Radiation Is Brought to Focus—G. M. Malyshev, G. V. Ostrovskaya, and T. Ya. Chelidze. 20, 207 (1966) [20, 374 (1966)]

CHEREMISKIN, I. V.
Experimental Determination of the Light-Amplification Coefficient in a Gascous Discharge—I. V. Cheremiskin, V. S. Makeev, and I. V. Sobolev. 20, 185 (1966) [20, 342 (1966)]

CHERNETS, A. N.
On the Angular Distribution of Energy Emitted by a Laser—V. M. Podgaetskii, O. G. Korneeva, and A. N. Chernets. 20, 72 (1966) [20, 138 (1966)]

CHERNYAVSKII, B. G.
Current-Voltage Characteristics of Electroluminescent ZnS-Cu Single Crystals—U. D. Dzhuzeev and B. G. Chernyavskii. 20, 183 (1966) [20, 339 (1966)]

CHILAYA, G. S.
Ultraviolet Electroluminescence of Zinc Sulfide—Yu. V. Bochkov, A. N. Georgobiani, A. S. Gershun, L. A. Sysoev, and G. S. Chilaya. 20, 100 (1966) [20, 183 (1966)]

CHULANOVSKII, V. M.
Effect of Hydrogen Bonding on the First and Second Derivatives of the Dipole Moment Function. The N—H Group of Diphenylamine and Diethylamine—S. Ya. Khaikin and V. M. Chulanovskii. 20, 126 (1966) [20, 234 (1966)]

DAVITASHVILI, T. Sh.
Optical Properties of F Centers in Potassium Chloride Crystals Irradiated in a Reactor—T. Sh. Davitashvili and N. G. Politov. 20, 146 (1966) [20, 272 (1966)]

DEMIDOV, K. B.
Measurement of the Quantum Yields of Photochromic Reactions of Spiropyrans in Polymeric Media Using the Luminescent Method—A. V. Shablya, K. B. Demidov, and Yu. N. Polyakov. 20, 412 (1966) [20, 738 (1966)]

DIANOV-KLOKOV, V. I.
Absorption Spectrum of Condensed Oxygen in the 1.26-0.3 μ Region—V. I. Dianov-Klokov. 20, 530 (1966) [20, 954 (1966)]

DIDYK, R. I.
The Formation of Color Centers in NaI and NaBr Crystals—R. I. Didyk, M. V. Pashkovskii, and N. A. Tsal. 20, 462 (1966) [20, 832 (1966)]

DISTLER, G. I.
New Infrared Polarizing Textures—G. I. Distler, A. V. Kotov, E. I. Kortukova, and V. N. Lebedeva. 20, 306 (1966) [20, 541 (1966)]

DOBKINA, Zh. S.
Absorption and Luminescence Spectra of Gd^{3+} in MeF_2—F. A. Gilfanov, Zh. S. Dobkina, A. L. Stolov, and L. D. Livanova. 20, 152 (1966) [20, 283 (1966)]

DODONOVA, N. Ya.
Fluorescence of NO during Photodissociation of N_2O under the Effect of Vacuum Ultraviolet Radiation—N. Ya. Dodonova. 20, 271 (1966) [20, 493 (1966)]

DONIN, V. I.
Determination of the $2s_2$ Level Population and the Probability of the $2s_2-2p_4$ Transition in Neon—V. I. Donin and V. P. Chebotaev. 20, 414 (1966) [20, 740 (1966)]

DOVGER, L. S.
The Effect of Stimulated Radiation on the Transmission of Solutions of Some Organic Dyes—L. S. Dovger, B. A. Ermakov, A. V. Lukin, and L. P. Shklover. 20, 499 (1966) [20, 903 (1966)]

DRUZHININ, V. V.
On the Calculation of the Spectrum of Sm^{2+} in SrF_2—V. V. Druzhinin and A. P. Khaimenov. 20, 176 (1966) [20, 330 (1966)]

DUBOVIK, M. F.
Method of Preparation and the Luminescence of Cadmium Fluoride Crystals Activated by Rare Earth Ions—N. K. Ageyeva, M. F. Dubovik, Yu. F. Rybkin, S. A. Sazonova, B. S. Skorobogatov, and O. M. Smirnova. 20, 50 (1966) [20, 96 (1966)]

Luminescence of Eu^{3+} in Cadmium Fluoride Crystals—M. F. Dubovik, A. I. Promoskal, and B. S. Skorobogatov. 20, 205 (1966) [20, 371 (1966)]

DUDAREV, E. S.
On the Ionic Mechanism of the Photothermal Decay of F Color Centers in Alkali Halide Crystal Phosphors—E. S. Dudarev, F. N. Zaitov, and Yu. L. Lukantsever. 20, 245 (1966) [20, 450 (1966)]

DUDKIN, V. A.
The Excitation of Thallium Atoms by Interaction with Ammonia Molecules—T. L. Andreeva, V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 178 (1966) [20, 333 (1966)]

The Influence of Impurities on the Concentration of Thallium Atoms in the Metastable State—V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 313 (1966) [20, 554 (1966)]

Negative Absorption in the Case of Nonequilibrium Distribution of Molecules with Respect to Velocity—V. A. Dudkin. 20, 528 (1966) [20, 950 (1966)]

DUDNIK, V. P.
Preparation and Properties of Sublimate ZnS-Cu Electroluminor with Blue Luminescence—G. A. Zholkevich and V. P. Dudnik. 20, 378 (1966) [20, 678 (1966)]

DUKHOPEL, I. I.
Study of the Coherence of Ruby Laser Emission in Peaks—I. I. Dukhopel, T. V. Simonenko, and I. E. Urnis. 20, 473 (1966) [20, 853 (1966)]

DVINYANINOV, B. L.
Color Centers in Lithium Hydride—B. L. Dvinyaninov and F. F. Gavrilov. 20, 38 (1966) [20, 74 (1966)]

DYAKONOV, M. I.
On the Theory of a Gas Laser in a Magnetic Field—M. I. Dyakonov and V. I. Perel. 20, 257 (1966) [20, 472 (1966)]

DZHUZEEV, U. D.
Current-Voltage Characteristics of Electroluminescent ZnS-Cu Single Crystals—U. D. Dzhuzeev and B. G. Chernyavskii. 20, 183 (1966) [20, 339 (1966)]

EGOROV, V. S.
The Concentration of Normal Atoms in a Pulsed Discharge in Metallic Vapors—V. S. Egorov, V. N. Skrebov, and A. M. Shukhtin. 20, 211 (1966) [20, 382 (1966)]

EGOROVA, V. F.
The Luminescence and Stimulated Emission Spectrum of CaF_2-U^{3+} Crystals—V. F. Egorova, V. S. Zubkova, A. A. Mak, and D. S. Prilezhaev. 20, 491 (1966) [20, 890 (1966)]

EIDELBERG, M. I.
Polarization Effects in the Electroluminescence of Anodic Oxide Films—M. I. Eidelberg. 20, 479 (1966) [20, 866 (1966)]

ERMAKOV, B. A.
The Effect of Stimulated Radiation on the Transmission of Solutions of Some Organic Dyes—L. S. Dovger, B. A. Ermakov, A. V. Lukin, and L. P. Shklover. 20, 499 (1966) [20, 903 (1966)]

ERMAKOV, G. A.
Temperature Effects in the Ne-He Laser—S. A. Gonchukov, G. A. Ermakov, G. A. Mikhnenko, and E. D. Protsenko. 20, 601 (1966) [20, 1083 (1966)]

FAIDYSH, A. N.
The Transfer of Electronic Excitation Energy in Naphthalene Crystals Doped with β-Methylnaphthalene, Anthracene, and Acridine. I—V. L. Zima, A. D. Kravchenko, and A. N. Faidysh. 20, 240 (1966) [20, 441 (1966)]
Diffusion of Excitons in Naphthalene and Anthracene Crystals. II—V. L. Zima and A. N. Faidysh. 20, 566 (1966) [20, 1022 (1966)]

FEDEROV, V. L.
Polarization of the 5016 Å Helium Line Excited by Electron Collision—V. I. Perel and V. L. Fedorov. 20, 417 (1966) [20, 745 (1966)]
Polarization of Helium Spectral Lines Excited by Electron Collisions—V. L. Fedorov and L. E. Golovanevskaya. 20, 419 (1966) [20, 750 (1966)]

FELTSAN, P. V.
On the Excitation Cross Sections of 2p Levels of Argon, Krypton, and Xenon—I. P. Zapesochnyi and P. V. Feltsan. 20, 291 (1966) [20, 521 (1966)]

FENINA, N. A.
A Study of the Quasi-Line Spectra of 1,2-Benzanthracene and Its Methyl Derivatives. I. The Quasi-Line Luminescence and Absorption Spectra of 1,2-Benzanthracene at 77°K—N. A. Fenina. 20, 428 (1966) [20, 768 (1966)]

FEOFILOV, P. P.
Reduction of Rare-Earth Ions by Radiation in Fluorite-Type Crystals with Two Activators—V. A. Arkhangelskaya and P. P. Feofilov. 20, 90 (1966) [20, 169 (1966)]
Absorption and Luminescence of Divalent Samarium in Fluoroberyllate Glasses—G. T. Petrovskii, P. P. Feofilov, and G. A. Tsurikova. 20, 289 (1966) [20, 519 (1966)]
Triple Optical Resonance in BaF_2-Er^{3+} Crystals—V. V. Ovsyankin and P. P. Feofilov. 20, 296 (1966) [20, 526 (1966)]

FIALKOVSKAYA, O. V.
Spectral Investigation of Urea Crystals in Polarized Light—A. V. Nefedov and O. V. Fialkovskaya. 20, 445 (1966) [20, 798 (1966)]
Vibrational Spectrum of the Acenaphthene Single Crystal in Light Polarized in Three Crystallographic Planes—A. V. Nefedov and O. V. Fialkovskaya. 20, 563 (1966) [20, 1016 (1966)]

FIL, I. D.
Emission Spectra and Kinetics of the Luminescence of Organic Molecules under Conditions of Reabsorption in Triplet–Triplet Transitions—Yu. V. Naboikin, L. A. Ogurtsova, and I. D. Fil. 20, 27 (1966) [20, 53 (1966)]

FILIPPOVA, M. A.
Theoretical Study of Control of Generation in a Ruby Laser Using an Ultrasonic Traveling Wave Diffraction Modulator—A. G. Pokrovskii and M. A. Filippova. 20, 512 (1966) [20, 921 (1966)]

FINKEL, A. G.
Experimental and Theoretical Study of Absolute Intensities in the Infrared Spectra of Gaseous Hydrocarbons. VI.—A. G. Finkel. 20, 432 (1966) [20, 773 (1966)]

FINKELSHTEIN, A. I.
A Specialized Parameter System for Computing the Electronic Spectra of Molecules with C–C, C–N, and C–O Bonds, Using the Simple Molecular Orbital Method—A. I. Finkelshtein. 20, 224 (1966) [20, 408 (1966)]

FISHMAN, I. S.
Plasma Diagnostics Based on the Self-Reversed Contours of Spectral Lines Emitted by Inhomogeneous Layers—G. G. Ilin and I. S. Fishman. 20, 214 (1966) [20, 387 (1966)]

FOMICHEV, V. A.
Absorption Coefficients of Nitrocellulose and Polystyrene in the 8–410 Å Region of Ultrasoft X-Ray Radiation—A. P. Lukirskii, V. A. Fomichev, and I. A. Brytov. 20, 202 (1966) [20, 366 (1966)]

FRADKIN, E. E.
Open Asymmetric Spherical Resonators for Lasers—E. E. Fradkin. 20, 168 (1966) [20, 316 (1966)]
Effect of Configuration of a Resonator on the Intensity of Laser Radiation—V. N. Kuryatov and E. E. Fradkin. 20, 172 (1966) [20, 324 (1966)]

FUGOL, I. Ya.
The Afterglow of Helium in the Plasma of a High-Frequency Pulse Discharge at 77°K—P. L. Pakhomov, G. P. Reznikov, and I. Ya. Fugol. 20, 5 (1966) [20, 10 (1966)]

FULINSKA, K. F.
Effect of the Asymmetry of the Interference Layer on the Contrast of Fizeau Fringes Produced by Multiple-Beam Interference in Reflected Light—K. F. Fulinska. 20, 495 (1966) [20, 898 (1966)]

FURASHOV, N. I.
Far Infrared Absorption by Atmospheric Water Vapor—N. I. Furashov. 20, 234 (1966) [20, 427 (1966)]

GASANOVA, N. A.
The Optical Reflection of Single Crystals of GaS and GaSe—N. A. Gasanova and G. A. Akhundov. 20, 193 (1966) [20, 353 (1966)]

GAVRILOV, D. V.
Calculation of an Uncemented Two-Lens System with One Reflecting Surface—D. V. Gavrilov. 20, 486 (1966) [20, 881 (1966)]

GAVRILOV, F. F.
Color Centers in Lithium Hydride—B. L. Dvinyaninov and F. F. Gavrilov. 20, 38 (1966) [20, 74 (1966)]

GEETS, V. I.
Q Switching of Lasers by KS-19 Filters—M. P. Lisitsa, N. R. Kulish, V. I. Geets, and P. N. Koval. 20, 281 (1966) [20, 508 (1966)]

GENKIN, V. N.
Measurement of the Metastable Level Population of the Working Substance of a Laser—A. P. Aleksandrov, V. N. Genkin, and M. I. Kheifets. 20, 69 (1966) [20, 133 (1966)]

GEORGOBIANI, A. N.
Ultraviolet Electroluminescence of Zinc Sulfide—Yu. V. Bochkov, A. N. Georgobiani, A. S. Gershun, L. A. Sysoev, and G. S. Chilaya. 20, 100 (1966) [20, 183 (1966)]

GERSHUN, A. S.
Ultraviolet Electroluminescence of Zinc Sulfide—Yu. V. Bochkov, A. N. Georgobiani, A. S. Gershun, L. A. Sysoev, and G. S. Chilaya. 20, 100 (1966) [20, 183 (1966)]

GILFANOV, F. A.
Absorption and Luminescence Spectra of Gd^{3+} in MeF_2—F. A. Gilfanov, Zh. S. Dobkina, A. L. Stolov, and L. D. Livanova. 20, 152 (1966) [20, 283 (1966)]

GINZBURG, I. M.
Infrared Spectra and Association of Thiolic Acids—I. M. Ginzburg and L. A. Loginova. 20, 130 (1966) [20, 241 (1966)]

GIRIN, O. P.
Relationship Between the Observed and True Absorption Spectra of Molecules in a Condensed Medium. V. Infrared Absorption Bands of Chloroform and Carbon Tetrachloride in Solutions (740–810 cm^{-1})—V. S. Libov, O. P. Girin, and N. G. Bakhshiev. 20, 350 (1966) [20, 623 (1966)]

GLEBOVSKII, D. N.
Absorption and Bleaching Efficiency Spectra of Spirans During Photochromic Transformations—G. I. Lashkov, A. V. Shablya, and D. N. Glebovskii. 20, 95 (1966) [20, 176 (1966)]

GOLDFARB, V. M.
On the Population of Hydrogen Levels in the Argon-Hydrogen Plasma Jet—V. M. Goldfarb, E. V. Ilyina, I. E. Kostygova, G. A. Lukyanov, and V. A. Silantyev. 20, 602 (1966) [20, 1085 (1966)]

GOLOVANEVSKAYA, L. E.
Polarization of Helium Spectral Lines Excited by Electron Collisions—V. L. Fedorov and L. E. Golovanevskaya. 20, 419 (1966) [20, 750 (1966)]

GOLUBOVSKII, Yu. B.
Spectroscopic and Probe Investigation of a Contracted Discharge Column. I—Yu. B. Golubovskii, Yu. M. Kagan, and R. I. Lyagushchenko. 20, 317 (1966) [20, 561 (1966)]

GONCHUKOV, S. A.
Temperature Effects in the Ne-He Laser—S. A. Gonchukov, G. A. Ermakov, G. A. Mikhnenko, and E. D. Protsenko. 20, 601 (1966) [20, 1083 (1966)]

GORBATOV, I. A.
Investigation of the Temperature Behavior of the 1085 cm^{-1} Line-Width in Calcite—I. A. Gorbatov and B. M. Nosenko. 20, 460 (1966) [20, 828 (1966)]

GORBENKO, P. K.
Effect of Temperature on the Formation of Z_1 Centers in KCl–$CaCl_2$ Crystals—P. A. Yurachkovskii and P. K. Gorbenko. 20, 35 (1966) [20, 69 (1966)]
Structure and Transformation of Color Centers in KCl Crystals—P. K. Gorbenko. 20, 148 (1966) [20, 276 (1966)]
Kinetics of the Phototransformation of F Centers into F' Centers in Alkali Halide Crystals—P. K. Gorbenko. 20, 247 (1966) [20, 453 (1966)]

GORBENKO-GERMANOV, D. S.
On the Vibrational Structure of the Ground and Excited Levels of UO_2^{2+} in $K_4[UO_2(CO_3)_3]$—D. S. Gorbenko-Germanov and R. A. Zenkova. 20, 467 (1966) [20, 842 (1966)]

GRECHISHKIN, V. S.
Study of the Singlet-Triplet Transitions in Certain Charge Transfer Complexes Using EPR—V. S. Grechishkin. 20, 300 (1966) [20, 532 (1966)]

GRIBOVSKII, S. A.
Photoionization Absorption of Ar, Ze, Alcohol, and Methylal in the 7–44 Å Wavelength Range—A. P. Lukirskii, I. A. Brytov, and S. A. Gribovskii. 20, 203 (1966) [20, 368 (1966)]

GRUZDEV, P. F.
Calculation of the Oscillator Strengths of Multiplets of the Sharp and Diffuse Series in the Spectra of the Aluminum, Gallium, Indium, and Thallium Atoms—P. F. Gruzdev. 20, 209 (1966) [20, 377 (1966)]

GRYAZNOV, Yu. M.
Q Switching of a Ruby-Laser Resonator with the Aid of Clearing Substances of the Phthalocyanine Series—Yu. M. Gryaznov, O. L. Lebedev, and A. A. Chastov. 20, 278 (1966) [20, 503 (1966)]

GUDOVICH, E. S.
Regenerative Optical Helium-Neon Amplifier—V. V. Lebedeva, A. I. Odintsov, I. V. Lebedev, V. M. Andriyakhin, E. S. Gudovich, and I. P. Ponomareva. 20, 277 (1966) [20, 501 (1966)]

ILIN, G. G.
Plasma Diagnostics Based on the Self-Reversed Contours of Spectral Lines Emitted by Inhomogeneous Layers—G. G. Ilin and I. S. Fishman. 20, 214 (1966) [20, 387 (1966)]

ILYINA, E. V.
On the Population of Hydrogen Levels in the Argon-Hydrogen Plasma Jet—V. M. Goldfarb, E. V. Ilyina, I. E. Kostygova, G. A. Lukyanov, and V. A. Silantyev. 20, 602 (1966) [20, 1085 (1966)]

IMAS, Ya. A.
Excited Absorption Spectrum of Ruby—A. M. Bonch-Bruevich, T. K. Razumova, and Ya. A. Imas. 20, 575 (1966) [20, 1040 (1966)]

IOHANSON, A. V.
Nature of the So-Called Q Branch in the Infrared Spectra of Hydrogen Halides—A. V. Iohanson and E. B. Broun. 20, 21 (1966) [20, 42 (1966)]

IOVA, Yanku
The Shift of Ar I Spectral Lines in the Plasma of a Low-Power Spark Discharge—Yanku Iova. 20, 13 (1966) [20, 27 (1966)]

ISAENKO, V. I.
On the Cavity Losses on Mode Selection in the Stimulated Emission of Nd^{3+} in Glass—M. P. Vanyukov, V. I. Isaenko, L. A. Luizova, and O. A. Shorokhov. 20, 535 (1966) [20, 963 (1966)]

IVANOVA, A. V.
Quantum-Mechanical Calculation of Continuous Absorption Coefficients for Some Components of Intensely Heated Air—A. V. Ivanova and S. A. Solodchenkova. 20, 220 (1966) [20, 399 (1966)]

JANAC, J.
Estimation of the Efficiency of Radiation Sources in Infrared Gas Analyzers—J. Janac. 20, 80 (1966) [20, 154 (1966)]

KAGAN, Yu. M.
Spectroscopic and Probe Investigation of a Contracted Discharge Column. I—Yu. B. Golubovskii, Yu. M. Kagan, and R. I. Lyagushchenko. 20, 317 (1966) [20, 561 (1966)]

KANSKAYA, L. M.
Use of an Electron-Optical Light Converter for the Study of Magnetooptic Effects in Crystals in Strong Pulsed Magnetic Fields—B. P. Zakharchenya, V. L. Kreitser, L. A. Peknyi, L. M. Kanskaya, and A. I. Sibilev. 20, 406 (1966) [20, 730 (1966)]

KAPLYANSKII, A. A.
Piezospectroscopic Study of the Diagram of Levels and Transitions in Sm^{2+} Ions in Alkali-Earth Fluoride Crystals—A. A. Kaplyanskii and A. K. Przhevuskii. 20, 577 (1966) [20, 1045 (1966)]

KARAPETYAN, G. O.
Luminescence of Dysprosium-Activated Glasses—G. O. Karapetyan. 20, 265 (1966) [20, 487 (1966)]

KARAPETYAN, V. E.
Optical Characteristics of Monocrystals of Lanthanum–Sodium Molybdate—G. F. Bakhshieva, V. E. Karapetyan, A. M. Morozov. 20, 510 (1966) [20, 918 (1966)]

KHAIKIN, S. Ya.
Effect of Hydrogen Bonding on the First and Second Derivatives of the Dipole Moment Function. The N—H Group of Diphenylamine and Diethylamine—S. Ya. Khaikin and V. M. Chulanovskii. 20, 126 (1966) [20, 234 (1966)]

KHAIMENOV, A. P.
On the Calculation of the Spectrum of Sm^{2+} in SrF_2—V. V. Druzhinin and A. P. Khaimenov. 20, 176 (1966) [20, 330 (1966)]

KHARCHENKO, N. P.
Infrared Absorption of Chloroform-Bromoform Solutions in the Region of the C—H Bending Vibrations—N. P. Kharchenko. 20, 24 (1966) [20, 48 (1966)]

KHARTSIEV, V. E.
On the Resonance Absorption of Monochromatic Radiation in a System with an Intermediate Energy Level—V. E. Khartsiev. 20, 285 (1966) [20, 514 (1966)]

KHEIFETS, M. I.
Measurement of the Metastable Level Population of the Working Substance of a Laser—A. P. Aleksandrov, V. N. Genkin, and M. I. Kheifets. 20, 69 (1966) [20, 133 (1966)]

KHIRIN, V. N.
Spectral Distribution of the Relative Quantum Yield of Photoluminescence of Polycrystalline Cadmium Sulfide Films at 77°K—K. V. Shalimova, V. N. Khirin, and O. I. Korolev. 20, 587 (1966) [20, 1063 (1966)]

KHLEBNIKOVA, V. N.
Allowance for Mechanical Anharmonicity in the Calculation of Infrared Absorption Band Intensitites and Electrooptical Parameters—V. N. Khlebnikova, I. F. Kovalev, and V. P. Morozov. 20, 339 (1966) [20, 601 (1966)]

KHOLMOGOROV, V. E.
Two-Photon Sensitized Photodecomposition of Tertiary Butanol at 77°K—V. V. Rylkov, V. E. Kholmogorov, and A. N. Terenin. 20, 294 (1966) [20, 524 (1966)]

Spectral Detection of Color Centers on the Surface of Titanium Dioxide due to the Adsorption of Electron-Donor Molecules—Yu. D. Pimenov and V. E. Kholmogorov. 20, 605 (1966) [20, 1090 (1966)]

KHOMYAK, I. V.
Temperature Dependence of the Photoluminescence of Zinc Sulfide Electroluminors—I. K. Vereshchagin and I. V. Khomyak. 20, 99 (1966) [20, 182 (1966)]

KIRILLOVA, V. M.
The Absorption Spectrum of Neutron-Irradiated Silicon in the Near Infrared—V. M. Kirillova and E. N. Lotkova. 20, 181 (1966) [20, 337 (1966)]

KIRSANOV, B. P.
On Nonlinear Losses in Powerful Lasers—B. P. Kirsanov and A. S. Selivanenko. 20, 268 (1966) [20, 490 (1966)]

KLIMUSHEVA, G. V.
Spectral Study of Crystals of Monoalkylmesitylenes—G. V. Klimusheva. 20, 142 (1966) [20, 265 (1966)]

KLOCHKOV, V. P.
Determination of the Electronic Transition Frequency in Continuous Absorption and Emission Spectra—V. P. Klochkov and S. M. Korotkov. 20, 328 (1966) [20, 582 (1966)]

KOLOBKOV, V. P.
Triplet-Triplet Absorption Spectra of Solid Solutions of Certain Organic Compounds—I. A. Zhmyreva, V. P. Kolobkov, and S. V. Volkov. 20, 162 (1966) [20, 303 (1966)]

KOLOMOITSEV, F. I.
Electroluminescence of Zinc Sulfide as a Recombination Controlled by an Electric Field—F. I. Kolomoitsev and V. M. Korsun. 20, 476 (1966) [20, 859 (1966)]

KONDRATENKO, M. B.
The Physicochemical Nature of the Emission of the Auer-Welsbach Mixture in Flames—M. B. Kondratenko and V. A. Sokolov. 20, 94 (1966) [20, 175 (1966)]

KONONENKO, L. I.
Fluorescence of the Thulium Ion in Complexes with Organic Addends—L. I. Kononenko and N. S. Poluektov. 20, 98 (1966) [20, 180 (1966)]

KONONOV, E. Ya.
Spectra of Multiply Ionized Atoms of Sulfur S IX, S X in the Region 175-265 Å—E. Ya. Kononov. 20, 303 (1966) [20, 537 (1966)]

KONSTANTINOVA, E. N.
Augmentation of the Intensity of Radiation Emitted by Low-Voltage Gallium Arsenide Diodes—Z. V. Shirokshina and E. N. Konstantinova. 20, 92 (1966) [20, 173 (1966)]

KONYUKHOV, V. K.
CaF_2-Sm^{2+} Crystal Laser Excited by a Ruby Laser—V. K. Konyukhov, V. M. Marchenko, and A. M. Prokhorov. 20, 299 (1966) [20, 531 (1966)]

KOPVILLEM, U. Kh.
Effect of Collective Interactions on Optical Line Shapes and Energy Transfer Processes—U. Kh. Kopvillem and V. R. Nagibarov. 20, 450 (1966) [20, 809 (1966)]

KORNEEVA, O. G.
On the Angular Distribution of Energy Emitted by a Laser—V. M. Podgaetskii, O. G. Korneeva, and A. N. Chernets. 20, 72 (1966) [20, 138 (1966)]

KOROLEV, O. I.
Spectral Distribution of the Relative Quantum Yield of Photoluminescence of Polycrystalline Cadmium Sulfide Films at 77°K—K. V. Shalimova, V. N. Khirin, and O. I. Korolev. 20, 587 (1966) [20, 1063 (1966)]

KOROSTYLEVA, L. A.
Determination of the Magnetic Moment of Pu^{239}—L. A. Korostyleva. 20, 105 (1966) [20, 194 (1966)]

Hyperfine and Isotope Structure in the Plutonium Spectrum and Its Classification—L. A. Korostyleva and A. R. Striganov. 20, 309 (1966) [20, 545 (1966)]

KOROTKOV, S. M.
Determination of the Electronic Transition Frequency in Continuous Absorption and Emission Spectra—V. P. Klochkov and S. M. Korotkov. 20, 328 (1966) [20, 582 (1966)]

KORSUN, V. M.
Some Results of a Study of Electroluminescent Zinc Sulfide Single Crystals—V. M. Korsun. 20, 164 (1966) [20, 308 (1966)]

Electroluminescence of Zinc Sulfide as a Recombination Controlled by an Electric Field—F. I. Kolomoitsev and V. M. Korsun. 20, 476 (1966) [20, 859 (1966)

KORSUNSKII, A. A.
Effect of Surroundings on Spontaneous Radiation by Molecules—A. A. Korsunskii. 20, 435 (1966) [20, 780 (1966)]

KORTUKOVA, E. I.
New Infrared Polarizing Textures—G. I. Distler, A. V. Kotov, E. I. Kortukova, and V. N. Lebedeva. 20, 306 (1966) [20, 541 (1966)]

KOSTYGOVA, I. E.
On the Population of Hydrogen Levels in the Argon-Hydrogen Plasma Jet—V. M. Goldfarb, E. V. Ilyina, I. E. Kostygova, G. A. Lukyanov, and V. A. Silantyev. 20, 602 (1966) [20, 1085 (1966)]

KOSTYUK, V. P.
The Effect of Precipitation Rates and Annealing upon the Optical Constants of Precious Metals—I. N. Shklyarevskii, R. G. Yarovaya, V. P. Kostyuk, and L. G. Lelyuk. 20, 594 (1966) [20, 1074 (1966)]

KOTOMTSIEVA, L. A.
Calculation of the Luminescence Amplified in a Polished Laser Rod—A. M. Samson and L. A. Kotomtsieva. 20, 470 (1966) [20, 848 (1966)]

KOTOV, A. V.
New Infrared Polarizing Textures—G. I. Distler, A. V. Kotov, E. I. Kortukova, and V. N. Lebedeva. 20, 306 (1966) [20, 541 (1966)]

KOVAL, P. N.
Q Switching of Lasers by KS-19 Filters—M. P. Lisitsa, N. R. Kulish, V. I. Geets, and P. N. Koval. 20, 281 (1966) [20, 508 (1966)]

KOVALEV, I. F.
Allowance for Mechanical Anharmonicity in the Calculation of Infrared Absorption Band Intensitites and Electrooptical Parameters—V. N. Khlebnikova, I. F. Kovalev, and V. P. Morozov. 20, 339 (1966) [20, 601 (1966)]

KOVALSKII, L. V.
Application of the Prism Method for Investigating Transparent Media with a Refractive Index Gradient—L. V. Kovalskii and V. K. Polyanskii. 20, 408 (1966) [20, 733 (1966)]

KOVARSKII, V. A.
Concerning the Theory of Multiphonon Radiationless Transitions between Local States of Different Multiplicity. I—Yu. E. Perlin, V. A. Kovarskii, and B. S. Tsukerblat. 20, 367 (1966) [20, 657 (1966)]

KRAULINYA, E. K.
Absolute Effective Cross Sections for Sensitized Fluorescence of Mercury and Thallium Vapors—E. K. Kraulinya and A. E. Lezdin. 20, 304 (1966) [20, 539 (1966)]

KRAVCHENKO, A. D.
The Transfer of Electronic Excitation Energy in Naphthalene Crystals Doped with β-Methylnaphthalene, Anthracene, and Acridine. I—V. L. Zima, A. D. Kravchenko, and A. N. Faidysh. 20, 240 (1966) [20, 441 (1966)]

KRAVCHENKO, V. F.
The Effect of Metallic Gratings on the Emission from an Active Plane-Parallel Layer—V. F. Kravchenko. 20, 67 (1966) [20, 128 (1966)]

KREINGOLD, F. I.
Optical Absorption of Ag_2O in the Infrared Region of the Spectrum—F. I. Kreingold. 20, 180 (1966) [20, 336 (1966)]

KREITSER, V. L.
Use of an Electron-Optical Light Converter for the Study of Magnetooptic Effects in Crystals in Strong Pulsed Magnetic Fields—B. P. Zakharchenya, V. L. Kreitser, L. A. Peknyi, L. M. Kanskaya, and A. I. Sibilev. 20, 406 (1966) [20, 730 (1966)]

KRISTOFEL, N. N.
Dynamics of Nonideal Crystals and a Quasimolecular Model of Impurity Center Vibrations—N. N. Kristofel and G. S. Zavt. 20, 373 (1966) [20, 669 (1966)]

KRONGAUZ, V. G.
X-Ray Luminescence and Optical Burst in the Phosphor KI-Tl—I. A. Parfianovich and V. G. Krongauz. 20, 584 (1966) [20, 1058 (1966)]

KRUPENIKOVA, T.
Determination of the Lifetime of the $2p^53p(2p_4)$ State of Neon—T. Krupenikova and M. Chaika. 20, 604 (1966) [20, 1088 (1966)]

KRUZHILIN, Yu. I.
An Anisotropic Reflector for Lasers—Yu. I. Kruzhilin. 20, 397 (1966) [20, 713 (1966)]

KULISH, N. R.
Q Switching of Lasers by KS-19 Filters—M. P. Lisitsa, N. R. Kulish, V. I. Geets, and P. N. Koval. 20, 281 (1966) [20, 508 (1966)]

KUPRIANOV, S. E.
Excitation Functions of High Energy Long-Lived States of Inert Gas Atoms—S. E. Kuprianov. 20, 85 (1966) [20, 163 (1966)]

KURIK, M. V.
Optical Properties of Zinc Telluride. II. Effects of In, Ga, and Cu Impurities on the Absorption Edge—M. V. Kurik and A. V. Savitskii. 20, 159 (1966) [20, 297 (1966)]

KURYATOV, V. N.
Effect of Configuration of a Resonator on the Intensity of Laser Radiation—V. N. Kuryatov and E. E. Fradkin. 20, 172 (1966) [20, 324 (1966)]

KUSHNIRENKO, I. Ya.
Luminescence of Vitreous Halide Solutions Activated by Ions of Different Valence—M. U. Belyi and I. Ya. Kushnirenko. 20, 53 (1966) [20, 101 (1966)]

KUZYAKOV, Yu. Ya.
Fine Structure of Bands of the SiCl Molecule—I. E. Ovcharenko and Yu. Ya. Kuzyakov. 20, 14 (1966) [20, 30 (1966)]

LAIPANOV, R. Z.
On the Manifestation of Lines and Background in the Quasi-Line Phosphorescence Spectrum of Quinoline in Paraffins at 77° K—Kh. I. Mamedov and R. Z. Laipanov. 20, 280 (1966) [20, 505 (1966)]

LASHKOV, G. I.
A Spectral Investigation of the Luminescence and Internal Photoeffect of Polymerized Copper Phenylacetylide—G. I. Lashkov and V. S. Mylnikov. 20, 44 (1966) [20, 86 (1966)]
Absorption and Bleaching Efficiency Spectra of Spirans During Photochromic Transformations—G. I. Lashkov, A. V. Shablya, and D. N. Glebovskii. 20, 95 (1966) [20, 176 (1966)]

LEBEDEV, I. V.
Regenerative Optical Helium-Neon Amplifier—V. V. Lebedeva, A. I. Odintsov, I. V. Lebedev, V. M. Andriyakhin, E. S. Gudovich, and I. P. Ponomareva. 20, 277 (1966) [20, 501 (1966)]

LEBEDEV, O. L.
Luminescence Spectra of Some Fluorinated and Spatially Branched Europium and Terbium β-Diketonates—O. L. Lebedev and A. V. Michurina. 20, 184 (1966) [20, 340 (1966)]
Q Switching of a Ruby-Laser Resonator with the Aid of Clearing Substances of the Phthalocyanine Series—Yu. M. Gryaznov, O. L. Lebedev, and A. A. Chastov. 20, 278 (1966) [20, 503 (1966)]

LEBEDEVA, V. N.
New Infrared Polarizing Textures—G. I. Distler, A. V. Kotov, E. I. Kortukova, and V. N. Lebedeva. 20, 306 (1966) [20, 541 (1966)]

LEBEDEVA, V. V.
Regenerative Optical Helium-Neon Amplifier—V. V. Lebedeva, A. I. Odintsov, I. V. Lebedev, N. M. Andriyakhin, E. S. Gudovich, and I. P. Ponomareva. 20, 277 (1966) [20, 501 (1966)]

LELYUK, L. G.
The Effect of Precipitation Rates and Annealing upon the Optical Constants of Precious Metals—I. N. Shklyarevskii, R. G. Yarovaya, V. P. Kostyuk, and L. G. Lelyuk. 20, 594 (1966) [20, 1074 (1966)]

LETOKHOV, V. S.
The Photoionization of Atoms in Coherent States—V. S. Letokhov. 20, 190 (1966) [20, 349 (1966)]

LEZDIN, A. E.
Absolute Effective Cross Sections for Sensitized Fluorescence of Mercury and Thallium Vapors—E. K. Kraulinya and A. E. Lezdin. 20, 304 (1966) [20, 539 (1966)]

LIBOV, V. S.
Relationship Between the Observed and True Absorption Spectra of Molecules in a Condensed Medium. V. Infrared Absorption Bands of Chloroform and Carbon Tetrachloride in Solutions (740–810 cm^{-1})—V. S. Libov, O. P. Girin, and N. G. Bakhshiev. 20, 350 (1966) [20, 623 (1966)]

LISITSA, M. P.
Q Switching of Lasers by KS-19 Filters—M. P. Lisitsa, N. R. Kulish, V. I. Geets, and P. N. Koval. 20, 281 (1966) [20, 508 (1966)]

LISITSYN, V. N.
Excitation of Helium Levels During Optical Pumping—V. N. Lisitsyn and V. P. Chebotaev. 20, 409 (1966) [20, 734 (1966)]
The Generation of Laser Action in the 4f–3d Transitions of Neon by Optical Pumping of a He-Ne Discharge with a Helium Lamp—V. N. Lisitsyn and V. P. Chebotaev. 20, 603 (1966) [20, 1087 (1966)]

LIVANOVA, L. D.
Absorption and Luminescence Spectra of Gd^{3+} in MeF_2—F. A. Gilfanov, Zh. S. Dobkina, A. L. Stolov, and L. D. Livanova. 20, 152 (1966) [20, 283 (1966)]

LOGINOV, V. A.
Absorption Spectra of PtH and PtD—V. A. Loginov. 20, 88 (1966) [20, 167 (1966)]

LOGINOVA, L. A.
Infrared Spectra and Association of Thiolic Acids—I. M. Ginzburg and L. A. Loginova. 20, 130 (1966) [20, 241 (1966)]

LUGOVOI, V. N.
On the Theory of the Induced Raman Effect—V. N. Lugovoi 20, 553 (1966) [20, 996 (1966)]

LOTKOVA, E. N.
The Absorption Spectrum of Neutron-Irradiated Silicon in the Near Infrared—V. M. Kirillova and E. N. Lotkova. 20, 181 (1966) [20, 337 (1966)]

LUIZOVA, L. A.
On the Cavity Losses on Mode Selection in the Stimulated Emission of Nd^{3+} in Glass—M. P. Vanyukov, V. I. Isaenko, L. A. Luizova, and O. A. Shorokhov. 20, 535 (1966) [20, 963 (1966)]
Use of the Diffraction from a Slit for Plotting the Characteristic Curve of a Photoemulsion—L. A. Luizova and O. A. Shorokhov. 20, 596 (1966) [20, 1076 (1966)]

LUKANTSEVER, Yu. L.
On the Ionic Mechanism of the Photothermal Decay of F Color Centers in Alkali Halide Crystal Phosphors—E. S. Dudarev, F. N. Zaitov, and Yu. L. Lukantsever. 20, 245 (1966) [20, 450 (1966)]

LUKIN, A. V.
The Effect of Stimulated Radiation on the Transmission of Solutions of Some Organic Dyes—L. S. Dovger, B. A. Ermakov, A. V. Lukin, and L. P. Shklover. 20, 499 (1966) [20, 903 (1966)]

LUKIRSKII, A. P.
Absorption Coefficients of Nitrocellulose and Polystyrene in the 8–410 Å Region of Ultrasoft X-Ray Radiation—A. P. Lukirskii, V. A. Fomichev, and I. A. Brytov. 20, 202 (1966) [20, 366 (1966)]
Photoionization Absorption of Ar, Ze, Alcohol, and Methylal in the 7–44 Å Wavelength Range—A. P. Lukirskii, I. A. Brytov, and S. A. Gribovskii. 20, 203 (1966) [20, 368 (1966)]

LUKYANOV, G. A.
On the Population of Hydrogen Levels in the Argon-Hydrogen Plasma Jet—V. M. Goldfarb, E. V. Ilyina, I. E. Kostygova, G. A. Lukyanov, and V. A. Silantyev. 20, 602 (1966) [20, 1085 (1966)]

LYAGUSHCHENKO, R. I.
Spectroscopic and Probe Investigation of a Contracted Discharge Column. I—Yu. B. Golubovskii, Yu. M. Kagan, and R. I. Lyagushchenko. 20, 317 (1966) [20, 561 (1966)]

LYUTYI, A. I.
Excitation Characteristics of the Swann Bands of C_2 in Streams of Vapors of Metals and Organic Compounds—D. E. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 20, 320 (1966) [20, 568 (1966)]

MAK, A. A.
The Luminescence and Stimulated Emission Spectrum of CaF_2–U^{3+} Crystals—V. F. Egorova, V. S. Zubkova, A. A. Mak, and D. S. Prilezhaev. 20, 491 (1966) [20, 890 (1966)]

MAKEEV, V. S.
Experimental Determination of the Light-Amplification Coefficient in a Gaseous Discharge—I. V. Cheremiskin, V. S. Makeev, and I. V. Sobolev. 20, 185 (1966) [20, 342 (1966)]

MALKES, L. Ya.
Electronic Spectra of 1,4-Divinylbenzene Diaryl Derivatives—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 17 (1966) [20, 36 (1966)]
Electronic Spectra of Diaryl Derivatives of 1,4-Divinylbenzene. II—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 538 (1966) [20, 970 (1966)]

MALYSHEV, G. M.
Shadow Projections of a Spark in Air Occurring When Laser Radiation Is Brought to Focus—G. M. Malyshev, G. V. Ostrovskaya, and T. Ya. Chelidze. 20, 207 (1966) [20, 374 (1966)]

MALYSHEV, V. I.
The Excitation of Thallium Atoms by Interaction with Ammonia Molecules—T. L. Andreeva, V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 178 (1966) [20, 333 (1966)]
The Influence of Impurities on the Concentration of Thallium Atoms in the Metastable State—V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 313 (1966) [20, 554 (1966)]

MAMEDOV, Kh. I.
On the Manifestation of Lines and Background in the Quasi-Line Phosphorescence Spectrum of Quinoline in Paraffins at 77°K—Kh. I. Mamedov and R. Z. Laipanov. 20, 280 (1966) [20, 505 (1966)]

MAMEDZADE, S. M.
Monochromatization of the Radiation of a Ruby Laser with a Complex Resonator—S. M. Mamedzade. 20, 96 (1966) [20, 178 (1966)]

MARCHENKO, V. M.
CaF_2-Sm^{2+} Crystal Laser Excited by a Ruby Laser—V. K Konyukhov, V. M. Marchenko, and A. M. Prokhorov. 20, 299 (1966) [20, 531 (1966)]

MARDAYEVA, A. I.
The Dependence of the Infrared Spectra of Thymol on the State of Aggregation—A. I. Mardayeva and A. V. Bulgadayev. 20, 505 (1966) [20, 912 (1966)]

MARUSHKO, I. A.
Method of Kinetic Equations in the Theory of Generation of Second Optical Harmonics—I. A. Marushko and V. S. Mashkevich. 20, 61 (1966) [20, 117 (1966)]

MARUSIN, V. D.
Study of the Secondary Processes Due to Electronic Excitation Using the Coincidence Count Method—I. P. Bogdanova and V. D. Marusin. 20, 113 (1966) [20, 209 (1966)]

MARTYNCHENKO, V. M.
Vibrational Structure of the Luminescence Spectra of Frozen Solutions of Naphthalene and Tolan—V. I. Mikhailenko, P. A. Teplyakov, V. V. Trusov, and V. M. Martynchenko. 20, 29 (1966) [20, 58 (1966)]

MASHKEVICH, V. S.
Method of Kinetic Equations in the Theory of Generation of Second Optical Harmonics—I. A. Marushko and V. S. Mashkevich. 20, 61 (1966) [20, 117 (1966)]

MAYANTS, L. S.
Vibrational Spectra of Ferrocenes. II. Calculation of the Normal Vibrations of the Methylcyclopentadienyl Ring of 1,1'-Dimethylferrocene—L. S. Mayants and G. B. Shaltuper. 20, 560 (1966) [20, 1010 (1966)]

MERTZ, L.
On the Aperture of a Fourier Spectrometer Based on a Polarization Interferometer—W. H. Steel and L. Mertz. 20, 503 (1966) [20, 910 (1966)]

MICHURINA, A. V.
Luminescence Spectra of Some Fluorinated and Spatially Branched Europium and Terbium β-Diketonates—O. L. Lebedev and A. V. Michurina. 20, 184 (1966) [20, 340 (1966)]

MIKHAILENKO, V. I.
Vibrational Structure of the Luminescence Spectra of Frozen Solutions of Naphthalene and Tolan—V. I. Mikhailenko, P. A. Teplyakov, V. V. Trusov, and V. M. Martynchenko. 20, 29 (1966) [20, 58 (1966)]

MIKHNENKO, G. A.
Temperature Effects in the Ne-He Laser—S. A. Gonchukov, G. A. Ermakov, G. A. Mikhnenko, and E. D. Protsenko. 20, 601 (1966) [20, 1083 (1966)]

MILESHINA, L. A.
Electronic Spectra of 1,4-Divinylbenzene Diaryl Derivatives—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 17 (1966) [20, 36 (1966)]
Electronic Spectra of Diaryl Derivatives of 1,4-Divinylbenzene. II—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 538 (1966) [20, 970 (1966)]

MILOSLAVSKII, V. K.
Observation of the Faraday Effect in Interference Light Filters—V. K. Miloslavskii and E. I. Titova. 20, 179 (1966) [20, 335 (1966)]

MIROVITSKII, D. I.
On a Special Feature of the Application of the WKB Method—D. I. Mirovitskii and I. F. Budagyan. 20, 297 (1966) [20, 528 (1966)]

MORGENSHTERN, Z. L.
Spectral Distribution of the Luminescence Yield of Ruby—Z. L. Morgenshtern and V. V. Neustruev. 20, 464 (1966) [20, 837 (1966)]

MOROZOV, A. M.
Optical Characteristics of Monocrystals of Lanthanum-Sodium Molybdate—G. F. Bakhshieva, V. E. Karapetyan, A. M. Morozov. 20, 510 (1966) [20, 918 (1966)]

MOROZOV, E. V.
Vibrational Spectra of Rotational Isomers of Methallyl Chloride—Yu. A. Pentin and E. V. Morozov. 20, 357 (1966) [20, 637 (1966)]

MOROZOV, V. A.
On the Theory of the Resonance Transformation of Light by Molecules with Consideration of Two Intermediate Energy Levels—V. A. Morozov and P. P. Shorygin. 20, 115 (1966) [20, 214 (1966)]
On the Theory of Pulsations in Secondary Emission—V. A. Morozov. 20, 269 (1966) [20, 491 (1966)]

MOROZOV, V. P.
Allowance for Mechanical Anharmonicity in the Calculation of Infrared Absorption Band Intensitites and Electrooptical Parameters—V. N. Khlebnikova, I. F. Kovalev, and V. P. Morozov. 20, 339 (1966) [20, 601 (1966)]
On the Use of Effective Kinematic Coefficients for the Calculation of Anharmonicity in Molecular Vibrations. II. Calculation of Overtones. Certain Generalizations—A. Ya. Tsaune and V. P. Morozov. 20, 347 (1966) [20, 616 (1966)]

MUKHTAROV, I. A.
The Dipole Moment of the ClH_2C-CH_2F Molecule—I. A. Mukhtarov. 20, 191 (1966) [20, 351 (1966)]
Microwave Spectrum of the F_2HC-CH_2F Molecule in Excited Torsional-Vibrational States—I. A. Mukhtarov. 20, 192 (1966) [20, 352 (1966)]

MYLNIKOV, V. S.
A Spectral Investigation of the Luminescence and Internal Photoeffect of Polymerized Copper Phenylacetylide—G. I. Lashkov and V. S. Mylnikov. 20, 44 (1966) [20, 86 (1966)]

NABERUKHIN, Yu. I.
Adiabatic Theory of the Shape of Spectral Lines in Gases in Terms of the Hard Sphere Model—A. I. Burshtein and Yu. I. Naberukhin. 20, 521 (1966) [20, 936 (1966)]

NABOIKIN, Yu. V.
Emission Spectra and Kinetics of the Luminescence of Organic Molecules under Conditions of Reabsorption in Triplet-Triplet Transitions—Yu. V. Naboikin, L. A. Ogurtsova, and I. D. Fil. 20, 27 (1966) [20, 53 (1966)]

NAGIBAROV, V. R.
Effect of Collective Interactions on Optical Line Shapes and Energy Transfer Processes—U. Kh. Kopvillem and V. R. Nagibarov. 20, 450 (1966) [20, 809 (1966)]
Interaction Between Impurity Particles by Way of the Phonon Field—V. R. Nagibarov and I. A. Nagibarova. 20, 453 (1966) [20, 814 (1966)]

NAGIBAROVA, I. A.
Interaction Between Impurity Particles by Way of the Phonon Field—V. R. Nagibarov and I. A. Nagibarova. 20, 453 (1966) [20, 814 (1966)]

NEFEDOV, A. V.
Spectral Investigation of Urea Crystals in Polarized Light—A. V. Nefedov and O. V. Fialkovskaya. 20, 445 (1966) [20, 798 (1966)]
Vibrational Spectrum of the Acenaphthene Single Crystal in Light Polarized in Three Crystallographic Planes—A. V. Nefedov and O. V. Fialkovskaya. 20, 563 (1966) [20, 1016 (1966)]

NEUSTRUEV, V. V.
Spectral Distribution of the Luminescence Yield of Ruby—Z. L. Morgenshtern and V. V. Neustruev. 20, 464 (1966) [20, 837 (1966)]

NOSENKO, B. M.
Investigation of the Temperature Behavior of the 1085 cm^{-1} Line-Width in Calcite—I. A. Gorbatov and B. M. Nosenko. 20, 460 (1966) [20, 828 (1966)]

NURMUKHAMETOV, R. N.
Electronic Spectra of 1,4-Divinylbenzene Diaryl Derivatives—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 17 (1966) [20, 36 (1966)]
Electronic Spectra of Diaryl Derivatives of 1,4-Divinylbenzene. II—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 538 (1966) [20, 970 (1966)]

ODINTSOV, A. I.
Regenerative Optical Helium-Neon Amplifier—V. V. Lebedeva, A. I. Odintsov, I. V. Lebedev, V. M. Andriyakhin, E. S. Gudovich, and I. P. Ponomareva. 20, 277 (1966) [20, 501 (1966)]

OGURTSOVA, L. A.
Emission Spectra and Kinetics of the Luminescence of Organic Molecules under Conditions of Reabsorption in Triplet–Triplet Transitions—Yu. V. Naboikin, L. A. Ogurtsova, and I. D. Fil. 20, 27 (1966) [20, 53 (1966)]

OKSMAN, Ya. A.
High-Frequency Electroluminescence of Polycrystalline Gallium Phosphide—Ya. A. Oksman, V. N. Smirnov, A. D. Smirnova, and D. N. Tretyakov. 20, 275 (1966) [20, 499 (1966)]

OSHEROVICH, A. L.
The Lifetimes of Certain Levels of Mercury and Cadmium—Ya. F. Verolainen and A. L. Osherovich. 20, 517 (1966) [20, 929 (1966)]

OSIPOV, V. G.
Calculation of the Vibrational Spectrum of Nitrobenzene—V. A. Shlyapochnikov and V. G. Osipov. 20, 509 (1966) [20, 917 (1966)]

OSTROVSKAYA, G. V.
Shadow Projections of a Spark in Air Occurring When Laser Radiation Is Brought to Focus—G. M. Malyshev, G. V. Ostrovskaya, and T. Ya. Chelidze. 20, 207 (1966) [20, 374 (1966)]

OVCHARENKO, I. E.
Fine Structure of Bands of the SiCl Molecule—I. E. Ovcharenko and Yu. Ya. Kuzyakov. 20, 14 (1966) [20, 30 (1966)]

OVSYANKIN, V. V.
Triple Optical Resonance in BaF_2-Er^{3+} Crystals—V. V. Ovsyankin and P. P. Feofilov. 20, 296 (1966) [20, 526 (1966)]

PAKHOMOV, P. L.
The Afterglow of Helium in the Plasma of a High-Frequency Pulse Discharge at 77°K—P. L. Pakhomov, G. P. Reznikov, and I. Ya. Fugol. 20, 5 (1966) [20, 10 (1966)]

PALCHEVSKII, V. V.
The Effect of Indifferent Substances on the Electronic Absorption Spectra of an Organic Cation—V. V. Palchevskii and L. A. Polyanskaya. 20, 227 (1966) [20, 415 (1966)]

PARFIANOVICH, I. A.
X-Ray Luminescence and Optical Burst in the Phosphor KI-Tl—I. A. Parfianovich and V. G. Krongauz. 20, 584 (1966) [20, 1058 (1966)]

PASHKOVSKII, M. V.
The Formation of Color Centers in NaI and NaBr Crystals—R. I. Didyk, M. V. Pashkovskii, and N. A. Tsal. 20, 462 (1966) [20, 832 (1966)]

PEKNYI, L. A.
Use of an Electron-Optical Light Converter for the Study of Magnetooptic Effects in Crystals in Strong Pulsed Magnetic Fields—B. P. Zakharchenya, V. L. Kreitser, L. A. Peknyi, L. M. Kanskaya, and A. I. Sibilev. 20, 406 (1966) [20, 730 (1966)]

PENKIN, N. P.
Study of the Positive Column of a Discharge in Cadmium Vapor and Determination of Effective Cross Sections of the $6\,^3S_1$ Level—N. P. Penkin and T. P. Redko. 20, 106 (1966) [20, 197 (1966)]

PENTIN, Yu. A.
Vibrational Spectra of Ethylchlorosilanes. II. Ethylmonochlorosilane—S. E. Rudakova, T. F. Tulyakova, and Yu. A. Pentin. 20, 353 (1966) [20, 629 (1966)]
Vibrational Spectra of Rotational Isomers of Methallyl Chloride—Yu. A. Pentin and E. V. Morozov. 20, 357 (1966) [20, 637 (1966)]

PEREL, V. I.
On the Theory of a Gas Laser in a Magnetic Field—M. I. Dyakonov and V. I. Perel. 20, 257 (1966) [20, 472 (1966)]
Polarization of the 5016 Å Helium Line Excited by Electron Collision—V. I. Perel and V. L. Fedorov. 20, 417 (1966) [20, 745 (1966)]

PERELMAN, A. Ya.
Determination of the Spectrum of Particles in a Disperse System from Data on Its Transmission. V. Verification of the Method with a Theoretical Model. The Case of the Almost Monodisperse System—K. S. Shifrin and A. Ya. Perelman. 20, 75 (1966) [20, 143 (1966)]
Determination of the Spectrum of Particles in a Disperse System Using Data on Its Transparency. VI—K. S. Shifrin, A. Ya. Perelman, and V. G. Bakhtiyarov. 20, 386 (1966) [20, 692 (1966)]

PERLIN, Yu. E.
Concerning the Theory of Multiphonon Radiationless Transitions between Local States of Different Multiplicity. I—Yu. E. Perlin, V. A. Kovarskii, and B. S. Tsukerblat. 20, 367 (1966) [20, 657 (1966)]

PETROVSKII, G. T.
Absorption and Luminescence of Divalent Samarium in Fluoroberyllate Glasses—G. T. Petrovskii, P. P. Feofilov, and G. A. Tsurikova. 20, 289 (1966) [20, 519 (1966)]

PIMENOV, Yu. D.
Spectral Detection of Color Centers on the Surface of Titanium Dioxide due to the Adsorption of Electron-Donor Molecules—Yu. D. Pimenov and V. E. Kholmogorov. 20, 605 (1966) [20, 1090 (1966)]

PITERSKAYA, I. V.
Universal Intermolecular Interactions and Their Effect on the Positions of the Electron Spectra of Molecules in Two-Component Solutions. XII. The Dependence of the Absorption and Fluorescence Spectra of Phthalimide Derivatives on the Temperature and Aggregation State of the Solvent (+20 to −196°C)—N. G. Bakhshiev and I. V. Piterskaya. 20, 437 (1966) [20, 783 (1966)]

PLOTNIKOV, V. G.
Computation of $n \rightarrow \pi^*$ Transitions by the Molecular Orbital Method—V. G. Plotnikov. 20, 217 (1966) [20, 394 (1966)]
Relative Positions of ($\pi\pi^*$) and ($n\pi^*$) States of Molecules and Their Optical Properties. I. The Effect of the Bond Length of Conjugated Bonds on the Relative Positions of ($n\pi^*$) and ($\pi\pi^*$) States—V. G. Plotnikov. 20, 332 (1966) [20, 589 (1966)]

PODGAETSKII, V. M.
On the Angular Distribution of Energy Emitted by a Laser—V. M. Podgaetskii, O. G. Korneeva, and A. N. Chernets. 20, 72 (1966) [20, 138 (1966)]

POKROVSKII, A. G.
Theoretical Study of Control of Generation in a Ruby Laser Using an Ultrasonic Traveling Wave Diffraction Modulator—A. G. Pokrovskii and M. A. Filippova. 20, 512 (1966) [20, 921 (1966)]

POLITOV, N. G.
Optical Properties of F Centers in Potassium Chloride Crystals Irradiated in a Reactor—T. Sh. Davitashvili and N. G. Politov. 20, 146 (1966) [20, 272 (1966)]

POLUEKTOV, N. S.
Fluorescence of the Thulium Ion in Complexes with Organic Addends—L. I. Kononenko and N. S. Poluektov. 20, 98 (1966) [20, 180 (1966)]

POLUKHIN, V. N.
Method for Computing the Refractive Indices of Optical Materials in the Spectral Range 0.365–2.6 μ—V. N. Polukhin. 20, 483 (1966) [20, 874 (1966)]

POLYAKOV, Yu. N.
Measurement of the Quantum Yields of Photochromic Reactions of Spiropyrans in Polymeric Media Using the Luminescent Method—A. V. Shablya, K. B. Demidov, and Yu. N. Polyakov. 20, 412 (1966) [20, 738 (1966)]

POLYANSKAYA, L. A.
The Effect of Indifferent Substances on the Electronic Absorption Spectra of an Organic Cation—V. V. Palchevskii and L. A. Polyanskaya. 20, 227 (1966) [20, 415 (1966)]

POLYANSKII, V. K.
On the Reflection of Light from Rough Surfaces—V. K. Polyanskii and V. P. Rvachev. 20, 391 (1966) [20, 701 (1966)]
Application of the Prism Method for Investigating Transparent Media with a Refractive Index Gradient—L. V. Kovalskii and V. K. Polyanskii. 20, 408 (1966) [20, 733 (1966)]

PONOMAREV, Yu. I.
Calculation of the Vibrational Spectra of Monogermane—Yu. I. Ponomarev. 20, 124 (1966) [20, 230 (1966)]

PONOMAREVA, I. P.
Regenerative Optical Helium-Neon Amplifier—V. V. Lebedeva, A. I. Odintsov, I. V. Lebedev, V. M. Andriyakhin, E. S. Gudovich, and I. P. Ponomareva. 20, 277 (1966) [20, 501 (1966)]

POPOV, M. M.
Application of the Ray Method to the Calculation of the Natural Frequencies of Multiple-Mirror Resonators—V. S. Buldyrev and M. M. Popov. 20, 500 (1966) [20, 905 (1966)]

POPOV, Yu. V.
Experimental Investigation of the Control of Ruby Laser Generation by Means of Diffraction Modulation with a Traveling Ultrasonic Wave—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 20, 514 (1966) [20, 924 (1966)]

PRICHKO, Yu. V.
Measurement of the Amplification of Coherent Optical Radiation in a Tube with a Helium–Neon Mixture—A. P. Skibarko and Yu. V. Prichko. 20, 502 (1966) [20, 908 (1966)]

PRIKHOTKO, A. F.
Spectral Study of Naphthalene Single Crystals—A. F. Prikhotko and A. F. Skorobogatko. 20, 33 (1966) [20, 65 (1966)]

PRILEZHAEV, D. S.
The Luminescence and Stimulated Emission Spectrum of CaF_2–U^{3+} Crystals—V. F. Egorova, V. S. Zubkova, A. A. Mak, and D. S. Prilezhaev. 20, 491 (1966) [20, 890 (1966)]

PRISTUPA, A. I.
Determination of the Concentration of Organic Molecules in the Triplet State during Excitation with Fast Electrons—M. V. Alfimov, N. Ya. Buben, A. I. Pristupa, and V. N. Shamshev. 20, 232 (1966) [20, 424 (1966)]

PROKHOROV, A. M.
CaF_2–Sm^{2+} Crystal Laser Excited by a Ruby Laser—V. K. Konyukhov, V. M. Marchenko, and A. M. Prokhorov. 20, 299 (1966) [20, 531 (1966)]

PROMOSKAL, A. I.
Luminescence of Eu^{3+} in Cadmium Fluoride Crystals—M. F. Dubovik, A. I. Promoskal, and B. S. Skorobogatov. 20, 205 (1966) [20, 371 (1966)]

PROTSENKO, E. D.
Temperature Effects in the Ne-He Laser—S. A. Gonchukov, G. A. Ermakov, G. A. Mikhnenko, and E. D. Protsenko. 20, 601 (1966) [20, 1083 (1966)]

PRZHEVUSKII, A. K.
Piezospectroscopic Study of the Diagram of Levels and Transitions in Sm^{2+} Ions in Alkali-Earth Fluoride Crystals—A. A. Kaplyanskii and A. K. Przhevuskii. 20, 577 (1966) [20, 1045 (1966)]

RABOTKINA, L. R.
Low Frequency Electroluminescence of a ZnS-Cu, Al Phosphor—L. R. Rabotkina and P. E. Ramazanov. 20, 254 (1966) [20, 467 (1966)]

RAMAZANOV, P. E.
Low Frequency Electroluminescence of a ZnS-Cu, Al Phosphor—L. R. Rabotkina and P. E. Ramazanov. 20, 254 (1966) [20, 467 (1966)]

RAZUMOVA, T. K.
Variation in the Degree of Polarization and Luminescence Decay Rate of the R Lines of Ruby under Strong Excitation—T. K. Razumova. 20, 197 (1966) [20, 360 (1966)]
Excited Absorption Spectrum of Ruby—A. M. Bonch-Bruevich, T. K. Razumova, and Ya. A. Imas. 20, 575 (1966) [20, 1040 (1966)]

REBANE, T. K.
Effect of Collision-Induced Transitions between the Sublevels of the Excited State on Depolarization of the Resonance Fluorescence of Atoms in a Magnetic Field—V. N. Rebane and T. K. Rebane. 20, 101 (1966) [20, 185 (1966)]

REBANE, V. N.
Effect of Collision-Induced Transitions between the Sublevels of the Excited State on Depolarization of the Resonance Fluorescence of Atoms in a Magnetic Field—V. N. Rebane and T. K. Rebane. 20, 101 (1966) [20, 185 (1966)]

REDKO, T. P.
Study of the Positive Column of a Discharge in Cadmium Vapor and Determination of Effective Cross Sections of the 6^3S_1 Level—N. P. Penkin and T. P. Redko. 20, 106 (1966) [20, 197 (1966)]

REUT, E. G.
Radiative Levels of the Pr^{3+} Ion in Scheelite-Type Crystals—E. G. Reut and A. I. Ryskin. 20, 91 (1966) [20, 172 (1966)]

REZNIKOV, G. P.
The Afterglow of Helium in the Plasma of a High-Frequency Pulse Discharge at 77°K—P. L. Pakhomov, G. P. Reznikov, and I. Ya. Fugol. 20, 5 (1966) [20, 10 (1966)]

REZVOV, A. V.
Measurement of the Amplification Coefficient of an Excited Medium by the Intensity of Luminescence—D. E. Burlankov and A. V. Rezvov. 20, 262 (1966) [20, 481 (1966)]

ROSSIKHIN, V. S.
Excitation Characteristics of the Swann Bands of C_3 in Streams of Vapors of Metals and Organic Compounds—D. E. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 20, 320 (1966) [20, 568 (1966)]

RUBIN, P. L.
Line Intensity Factors in Electronic Spectra of Diatomic Molecules—P. L. Rubin. 20, 325 (1966) [20, 576 (1966)]

RUDAKOVA, S. E.
Vibrational Spectra of Ethylchlorosilanes. II. Ethylmonochlorosilane—S. E. Rudakova, T. F. Tulyakova, and Yu. A. Pentin. 20, 353 (1966) [20, 629 (1966)]

RUDENKO, V. N.
Change in Temperature of a Medium under the Action of a Laser Pulse—V. N. Rudenko. 20, 204 (1966) [20, 370 (1966)]

RUDIN, V. L.
Optical-Acoustical Receiver for the Centimeter-Wave Range—V. L. Rudin. 20, 200 (1966) [20, 364 (1966)]

RVACHEV, V. P.
On the Reflection of Light from Rough Surfaces—V. K. Polyanskii and V. P. Rvachev. 20, 391 (1966) [20, 701 (1966)]

RYBKIN, Yu. F.
Method of Preparation and the Luminescence of Cadmium Fluoride Crystals Activated by Rare Earth Ions—N. K. Ageyeva, M. F. Dubovik, Yu. F. Rybkin, S. A. Sazonova, B. S. Skorobogatov, and O. M. Smirnova. 20, 50 (1966) [20, 96 (1966)]

RYLKOV, V. V.
Two-Photon Sensitized Photodecomposition of Tertiary Butanol at 77°K—V. V. Rylkov, V. E. Kholmogorov, and A. N. Terenin. 20, 294 (1966) [20, 524 (1966)]

RYSKIN, A. I.
Radiative Levels of the Pr^{3+} Ion in Scheelite-Type Crystals—E. G. Reut and A. I. Ryskin. 20, 91 (1966) [20, 172 (1966)]

SAMOKHINA, M. A.
On the Mechanism of Sensitizing the Luminescence of Eu^{3+} and Tb^{3+} Ions by Organic Dyes—Ch. M. Briskina, V. F. Zolin, and M. A. Samokhina. 20, 599 (1966) [20, 1081 (1966)]

SAMSON, A. M.
Calculation of the Luminescence Amplified in a Polished Laser Rod—A. M. Samson and L. A. Kotomtsieva. 20, 470 (1966) [20, 848 (1966)]

SAVIN, F. A.
On the Conformity of the Semiclassical and Quantum-Mechanical Theories of the Vibrational Raman Scattering of Light by Molecules—F. A. Savin. 20, 549 (1966) [20, 989 (1966)]

SAVITSKII, A. V.
Optical Properties of Zinc Telluride. II. Effects of In, Ga, and Cu Impurities on the Absorption Edge—M. V. Kurik and A. V. Savitskii. 20, 159 (1966) [20, 297 (1966)]

SAZONOVA, S. A.
Method of Preparation and the Luminescence of Cadmium Fluoride Crystals Activated by Rare Earth Ions—N. K. Ageyeva, M. F. Dubovik, Yu. F. Rybkin, S. A. Sazonova, B. S. Skorobogatov, and O. M. Smirnova. 20, 50 (1966) [20, 96 (1966)]

SELIVANENKO, A. S.
On Nonlinear Losses in Powerful Lasers—B. P. Kirsanov and A. S. Selivanenko. 20, 268 (1966) [20, 490 (1966)]

SHABLYA, A. V.
Absorption and Bleaching Efficiency Spectra of Spirans During Photochromic Transformations—G. I. Lashkov, A. V. Shablya, and D. N. Glebovskii. 20, 95 (1966) [20, 176 (1966)]
Measurement of the Quantum Yields of Photochromic Reactions of Spiropyrans in Polymeric Media Using the Luminescent Method—A. V. Shablya, K. B. Demidov, and Yu. N. Polyakov. 20, 412 (1966) [20, 738 (1966)]

SHALIMOVA, K. V.
Spectral Distribution of the Relative Quantum Yield of Photoluminescence of Polycrystalline Cadmium Sulfide Films at 77°K—K. V. Shalimova, V. N. Khirin, and O. I. Korolev. 20, 587 (1966) [20, 1063 (1966)]

SHALTUPER, G. B.
Vibrational Spectra of Ferrocenes. II. Calculation of the Normal Vibrations of the Methylcyclopentadienyl Ring of 1,1'-Dimethylferrocene—L. S. Mayants and G. B. Shaltuper. 20, 560 (1966) [20, 1010 (1966)]

SHAMSHEV, V. N.
Determination of the Concentration of Organic Molecules in the Triplet State during Excitation with Fast Electrons—M. V. Alfimov, N. Ya. Buben, A. I. Pristupa, and V. N. Shamshev. 20, 232 (1966) [20, 424 (1966)]

SHERUDILO, A. I.
Note on Multiwave Cytophotometry—A. I. Sherudilo. 20, 307 (1966) [20, 543 (1966)]

SHIFRIN, K. S.
Determination of the Spectrum of Particles in a Disperse System from Data on Its Transmission. V. Verification of the Method with a Theoretical Model. The Case of the Almost Monodisperse System—K. S. Shifrin and A. Ya. Perelman. 20, 75 (1966) [20, 143 (1966)]
Determination of the Spectrum of Particles in a Disperse System Using Data on Its Transparency. VI—K. S. Shifrin, A. Ya. Perelman, and V. G. Bakhtiyarov. 20, 386 (1966) [20, 692 (1966)]

SHIMON, L. L.
Effective Excitation Cross Sections of Alkali-Metal Atoms Colliding with Slow Electrons. IV. Cesium—I. P. Zapesochnyi and L. L. Shimon. 20, 421 (1966) [20, 753 (1966)]
Effective Cross Sections for the Excitation of Alkali-Metal Atoms by Slow Electron Collisions. III. Rubidium—I. P. Zapesochnyi and L. L. Shimon. 20, 525 (1966) [20, 944 (1966)]

SHIROKSHINA, Z. V.
Augmentation of the Intensity of Radiation Emitted by Low-Voltage Gallium Arsenide Diodes—Z. V. Shirokshina and E. N. Konstantinova. 20, 92 (1966) [20, 173 (1966)]

SHKLOVER, L. P.
The Effect of Stimulated Radiation on the Transmission of Solutions of Some Organic Dyes—L. S. Dovger, B. A. Ermakov, A. V. Lukin, and L. P. Shklover. 20, 499 (1966) [20, 903 (1966)]

SHKLYAREVSKII, I. N.
Quantum Absorption of Light in Copper—R. G. Yarovaya and I. N. Shklyarevskii. 20, 194 (1966) [20, 355 (1966)]
The Effect of Precipitation Rates and Annealing upon the Optical Constants of Precious Metals—I. N. Shklyarevskii, R. G. Yarovaya, V. P. Kostyuk, and L. G. Lelyuk. 20, 594 (1966) [20, 1074 (1966)]

SHLYAPOCHNIKOV, V. A.
Calculation of the Vibrational Spectrum of Nitrobenzene—V. A. Shlyapochnikov and V. G. Osipov. 20, 509 (1966) [20, 917 (1966)]

SHMIGLYUK, M. I.
On the Polarization Effect in the Yellow Exciton Series of Cu_2O—M. I. Shmiglyuk. 20, 47 (1966) [20, 92 (1966)]

SHOROKHOV, O. A.
On the Cavity Losses on Mode Selection in the Stimulated Emission of Nd^{3+} in Glass—M. P. Vanyukov, V. I. Isaenko, L. A. Luizova, and O. A. Shorokhov. 20, 535 (1966) [20, 963 (1966)]
Use of the Diffraction from a Slit for Plotting the Characteristic Curve of a Photoemulsion—L. A. Luizova and O. A. Shorokhov. 20, 596 (1966) [20, 1076 (1966)]

SHORYGIN, P. P.
On the Theory of the Resonance Transformation of Light by Molecules with Consideration of Two Intermediate Energy Levels—V. A. Morozov and P. P. Shorygin. 20, 115 (1966) [20, 214 (1966)]

SHREIDER, E. Ya.
Determination of Oscillator Strengths of the Resonance Lines of Xenon—G. I. Chashchina and E. Ya. Shreider. 20, 283 (1966) [20, 511 (1966)]

SHUBINA, L. V.
Electronic Spectra of 1,4-Divinylbenzene Diaryl Derivatives—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 17 (1966) [20, 36 (1966)]
The Raman Analog of Electronic and Nuclear Spin Induction and Echo—R. V. Shubina. 20, 369 (1966) [20, 661 (1966)]
Electronic Spectra of Diaryl Derivatives of 1,4-Divinylbenzene. II—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 538 (1966) [20, 970 (1966)]

SHUKHTIN, A. M.
The Concentration of Normal Atoms in a Pulsed Discharge in Metallic Vapors—V. S. Egorov, V. N. Skrebov, and A. M. Shukhtin. 20, 211 (1966) [20, 382 (1966)]

SIBILEV, A. I.
Use of an Electron-Optical Light Converter for the Study of Magnetooptic Effects in Crystals in Strong Pulsed Magnetic Fields—B. P. Zakharchenya, V. L. Kreitser, L. A. Peknyi, L. M. Kanskaya, and A. I. Sibilev. 20, 406 (1966) [20, 730 (1966)]

SILANTYEV, V. A.
On the Population of Hydrogen Levels in the Argon-Hydrogen Plasma Jet—V. M. Goldfarb, E. V. Ilyina, I. E. Kostygova, G. A. Lukyanov, and V. A. Silantyev. 20, 602 (1966) [20, 1085 (1966)]

SIMONENKO, T. V.
Study of the Coherence of Ruby Laser Emission in Peaks—I. I. Dukhopel, T. V. Simonenko, and I. E. Urnis. 20, 473 (1966) [20, 853 (1966)]

SKIBARKO, A. P.
Measurement of the Amplification of Coherent Optical Radiation in a Tube with a Helium-Neon Mixture—A. P. Skibarko and Yu. V. Prichko. 20, 502 (1966) [20, 908 (1966)]

SKOROBOGATKO, A. F.
Spectral Study of Naphthalene Single Crystals—A. F. Prikhotko and A. F. Skorobogatko. 20, 33 (1966) [20, 65 (1966)]

SKOROBOGATKOV, B. S.
Method of Preparation and the Luminescence of Cadmium Fluoride Crystals Activated by Rare Earth Ions—N. K. Ageyeva, M. F. Dubovik, Yu. F. Rybkin, S. A. Sazonova, B. S. Skorobogatov, and O. M. Smirnova. 20, 50 (1966) [20, 96 (1966)]
Luminescence of Eu^{3+} in Cadmium Fluoride Crystals—M. F. Dubovik, A. I. Promoskal, and B. S. Skorobogatov. 20, 205 (1966) [20, 371 (1966)]

SKREBOV, V. N.
The Concentration of Normal Atoms in a Pulsed Discharge in Metallic Vapors—V. S. Egorov, V. N. Skrebov, and A. M. Shukhtin. 20, 211 (1966) [20, 382 (1966)]

SLAVENAS, I.-Yu. Yu.
Oscillator Strengths of Some Cu I and Ag I Spectral Lines—I.-Yu. Yu. Slavenas. 20, 264 (1966) [20, 485 (1966)]

SLYUSAREV, G. G.
Computation of the Frequency-Contrast Characteristic—G. G. Slyusarev. 20, 398 (1966) [20, 716 (1966)]

SMIRNOV, V. N.
High-Frequency Electroluminescence of Polycrystalline Gallium Phosphide—Ya. A. Oksman, V. N. Smirnov, A. D. Smirnova, and D. N. Tretyakov. 20, 275 (1966) [20, 499 (1966)]

SMIRNOVA, A. D.
High-Frequency Electroluminescence of Polycrystalline Gallium Phosphide—Ya. A. Oksman, V. N. Smirnov, A. D. Smirnova, and D. N. Tretyakov. 20, 275 (1966) [20, 499 (1966)]

SMIRNOVA, O. M.
Method of Preparation and the Luminescence of Cadmium Fluoride Crystals Activated by Rare Earth Ions—N. K. Ageyeva, M. F. Dubovik, Yu. F. Rybkin, S. A. Sazonova, B. S. Skorobogatov, and O. M. Smirnova. 20, 50 (1966) [20, 96 (1966)]

SOBOLEV, I. V.
Experimental Determination of the Light-Amplification Coefficient in a Gaseous Discharge—I. V. Cheremiskin, V. S. Makeev, and I. V. Sobolev. 20, 185 (1966) [20, 342 (1966)]

SOBOLEV, V. V.
Quantitative Investigation of the Absorption of a Lead Iodide Crystal—V. V. Sobolev. 20, 87 (1966) [20, 165 (1966)]
Nature of the Fine Structure of Edge Absorption Lines of Cadmium Selenide and Cadmium Sulfide Monocrystals—V. V. Sobolev. 20, 375 (1966) [20, 673 (1966)]

SOKOLOV, V. A.
The Physicochemical Nature of the Emission of the Auer-Welsbach Mixture in Flames—M. B. Kondratenko and V. A. Sokolov. 20, 94 (1966) [20, 175 (1966)]

SOLODCHENKOVA, S. A.
Quantum-Mechanical Calculation of Continuous Absorption Coefficients for Some Components of Intensely Heated Air—A. V. Ivanova and S. A. Solodchenkova. 20, 220 (1966) [20, 399 (1966)]

SOROKIN, V. N.
The Excitation of Thallium Atoms by Interaction with Ammonia Molecules—T. L. Andreeva, V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 178 (1966) [20, 333 (1966)]

The Influence of Impurities on the Concentration of Thallium Atoms in the Metastable State—V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 313 (1966) [20, 554 (1966)]

SPARTAKOV, A. A.
Electrooptics of Bacteria and Spontaneous Polarization of the Water Adsorbed by Bacteria and Proteins—A. A. Spartakov, N. A. Tolstoi, and A. A. Trusov. 20, 301 (1966) [20, 535 (1966)]

SPERANSKAYA, N. I.
Effect of the Brightness Level on the Addition Functions of Spectral Colors—N. I. Speranskaya. 20, 404 (1966) [20, 727 (1966)]

STAROSTIN, N. V.
Wavefunctions of Frenkel Excitons in Cu_2O Crystals. I—N. V. Starostin. 20, 457 (1966) [20, 823 (1966)]

STEEL, W. H.
On the Aperture of a Fourier Spectrometer Based on a Polarization Interferometer—W. H. Steel and L. Mertz. 20, 503 (1966) [20, 910 (1966)]

STEFANSKII, I. V.
Temperature Dependence of the Dispersion of the Refractivity of ADP and KDP Single Crystals—V. N. Vishnevskii and I. V. Stefanskii. 20, 195 (1966) [20, 357 (1966)]

STOLOV, A. L.
Absorption and Luminescence Spectra of Gd^{3+} in MeF_2—F. A. Gilfanov, Zh. S. Dobkina, A. L. Stolov, and L. D. Livanova. 20, 152 (1966) [20, 283 (1966)]

STRIGANOV, A. R.
Hyperfine and Isotope Structure in the Plutonium Spectrum and Its Classification—L. A. Korostyleva and A. R. Striganov. 20, 309 (1966) [20, 545 (1966)]

STRIZHEVSKII, V. L.
On the Spectral Composition of Generated Radiation in the Case of Nonlinear Optical Phenomena—V. L. Strizhevskii. 20, 287 (1966) [20, 516 (1966)]

STRUNNIKOV, V. M.
Limits of Applicability of the Method of Measuring Electron Temperatures by the Relative Intensities of He I Lines—V. M. Strunnikov. 20, 1 (1966) [20, 3 (1966)]

SVIRIDOV, D. T.
On the Theory of the Absorption Spectrum of Ruby in the Metastable State—D. T. Sviridov. 20, 267 (1966) [20, 488 (1966)]

SYSOEV, L. A.
Ultraviolet Electroluminescence of Zinc Sulfide—Yu. V. Bochkov, A. N. Georgobiani, A. S. Gershun, L. A. Syscev, and G. S. Chilaya. 20, 100 (1966) [20, 183 (1966)]

TEPLYAKOV, P. A.
Vibrational Structure of the Luminescence Spectra of Frozen Solutions of Naphthalene and Tolan—V. I. Mikhailenko, P. A. Teplyakov, V. V. Trusov, and V. M. Martynchenko. 20, 29 (1966) [20, 58 (1966)]

TERENIN, A. N.
Two-Photon Sensitized Photodecomposition of Tertiary Butanol at 77°K—V. V. Rylkov, V. E. Kholmogorov, and A. N. Terenin. 20, 294 (1966) [20, 524 (1966)]

TERENTEV, V. E.
Experimental Investigation of the Control of Ruby Laser Generation by Means of Diffraction Modulation with a Traveling Ultrasonic Wave—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 20, 514 (1966) [20, 924 (1966)]

TIBILOV, A. S.
Zinc Vapor Laser—A. S. Tibilov. 20, 511 (1966) [20, 920 (1966)]

TITOVA, E. I.
Observation of the Faraday Effect in Interference Light Filters—V. K. Miloslavskii and E. I. Titova. 20, 179 (1966) [20, 335 (1966)]

TKACHUK, A. M.
Optical Properties of Platinocyanide Compounds. III. Concentrational Dependence of the Luminescence of Frozen Solutions—A. M. Tkachuk and N. A. Tolstoi. 20, 570 (1966) [20, 1030 (1966)]

TOLKACHEV, V. A.
Combining States in the Electronic-Vibrational Transitions of Complex Molecules and the Electronic Transition Frequency—V. A. Tolkachev. 20, 545 (1966) [20, 982 (1966)]

TOLSTOI, N. A.
Nonlinear Quenching of the Luminescence of Ruby under Intense Excitation—N. A. Tolstoi and A. P. Abramov. 20, 187 (1966) [20, 345 (1966)]

On a Possible Theoretical Interpretation of Nonlinear Quenching—N. A. Tolstoi and A. P. Abramov. 20, 273 (1966) [20, 496 (1966)]

Electrooptics of Bacteria and Spontaneous Polarization of the Water Adsorbed by Bacteria and Proteins—A. A. Spartakov, N. A. Tolstoi, and A. A. Trusov. 20, 301 (1966) [20, 535 (1966)]

On the Binary Centers Produced by Light in Uranyl Salts—N. A. Tolstoi, A. P. Abramov, and I. N. Abramova. 20, 415 (1966) [20, 742 (1966)]

Optical Properties of Platinocyanide Compounds. III. Concentrational Dependence of the Luminescence of Frozen Solutions—A. M. Tkachuk and N. A. Tolstoi. 20, 570 (1966) [20, 1030 (1966)]

TRAPEZNIKOVA, O. N.
Study of the Infrared Absorption Spectrum of the Polymer and Monomer of Methacrylic Acid—T. V. Belopolskaya and O. N. Trapeznikova. 20, 133 (1966) [20, 246 (1966)]

TRETYAKOV, D. N.
High-Frequency Electroluminescence of Polycrystalline Gallium Phosphide—Ya. A. Oksman, V. N. Smirnov, A. D. Smirnova, and D. N. Tretyakov. 20, 275 (1966) [20, 499 (1966)]

TROITSKII, Yu. V.
Distribution of Population Inversion Across an He-Ne Laser Discharge—Yu. V. Troitskii and V. P. Chebotaev. 20, 199 (1966) [20, 362 (1966)]

TRUSOV, A. A.
Electrooptics of Bacteria and Spontaneous Polarization of the Water Adsorbed by Bacteria and Proteins—A. A. Spartakov, N. A. Tolstoi, and A. A. Trusov. 20, 301 (1966) [20, 535 (1966)]

TRUSOV, V. V.
Vibrational Structure of the Luminescence Spectra of Frozen Solutions of Naphthalene and Tolan—V. I. Mikhailenko, P. A. Teplyakov, V. V. Trusov, and V. M. Martynchenko. 20, 29 (1966) [20, 58 (1966)]

TSAUNE, A. Ya.
On the Use of Effective Kinematic Coefficients for the Calculation of Anharmonicity in Molecular Vibrations. II. Calculation of Overtones. Certain Generalizations—A. Ya. Tsaune and V. P. Morozov. 20, 347 (1966) [20, 616 (1966)]

TSAL, N. A.
The Formation of Color Centers in NaI and NaBr Crystals—R. I. Didyk, M. V. Pashkovskii, and N. A. Tsal. 20, 462 (1966) [20, 832 (1966)]

TSIKORA, I. L.
Excitation Characteristics of the Swann Bands of C_3 in Streams of Vapors of Metals and Organic Compounds—D. E. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 20, 320 (1966) [20, 568 (1966)]

TSUKERBLAT, B. S.
Concerning the Theory of Multiphonon Radiationless Transitions between Local States of Different Multiplicity. I—Yu. E. Perlin, V. A. Kovarskii, and B. S. Tsukerblat. 20, 367 (1966) [20, 657 (1966)]

TSURIKOVA, G. A.
Absorption and Luminescence of Divalent Samarium in Fluoroberyllate Glasses—G. T. Petrovskii, P. P. Feofilov, and G. A. Tsurikova. 20, 289 (1966) [20, 519 (1966)]

TULYAKOVA, T. F.
Vibrational Spectra of Ethylchlorosilanes. II. Ethylmonochlorosilane—S. E. Rudakova, T. F. Tulyakova, and Yu. A. Pentin. 20, 353 (1966) [20, 629 (1966)]

TURKIN, Yu. I.
Nonequilibrium Population of Hyperfine Sublevels of the $6\,^3S_1$ Term in Cadmium—Yu. I. Turkin. 20, 411 (1966) [20, 736 (1966)]

URNIS, I. E.
Study of the Coherence of Ruby Laser Emission in Peaks—I. I. Dukhopel, T. V. Simonenko, and I. E. Urnis. 20, 473 (1966) [20, 853 (1966)]

VAIDANICH, V. I.
Absorption and Luminescence Spectra of NaI and NaI(Tl) at Low Temperatures. II—V. I. Vaidanich. 20, 250 (1966) [20, 459 (1966)]

VALIEV, K. A.
On the Theory of the Line Width of Electron Paramagnetic Resonance of Cu^{2+} Ions in Aqueous Solutions—K. A. Valiev and M. M. Zaripov. 20, 56 (1966) [20, 108 (1966)]

VANYUKOV, M. P.
On the Cavity Losses on Mode Selection in the Stimulated Emission of Nd^{3+} in Glass—M. P. Vanyukov, V. I. Isaenko, L. A. Luizova, and O. A. Shorokhov. 20, 535 (1966) [20, 963 (1966)]

VASILENKO, L. S.
Rate and Cross Section of Excitation of the $3s_2$ Level of Neon by $2\,^1S$ Metastable Helium Atoms During Discharges in a He–Ne Mixture—V. P. Chebotaev and L. S. Vasilenko. 20, 505 (1966) [20, 913 (1966)]

On the Competition of Transitions and the Achievement of Laser Action at 6401 Å Without a Dispersing Prism in the Resonator of a He–Ne Laser—L. S. Vasilenko and V. P. Chebotaev. 20, 507 (1966) [20, 915 (1966)]

VASILYEV, R. F.
Chemiluminescence in Solutions. III. The Effect of Additives Which Are Distinguished by the Height of Their Electronic Levels—V. A. Belyakov and R. F. Vasilyev. 20, 201 (1966) [20, 365 (1966)]

VASILEVSKII, A. S.
Application of the Generalized WKB Method to the Study of the Vibrational-Rotational Spectra of Diatomic Molecules. I. Vibrational-Rotational Spectrum of a Morse Oscillator—N. I. Zhirnov and A. S. Vasilevskii. 20, 121 (1966) [20, 224 (1966)]

VEKHTER, B. G.
Effect of Internal Asymmetry on the Optical Spectra of Transition-Metal Complexes—B. G. Vekhter. 20, 139 (1966) [20, 258 (1966)]

VEMBER, T. M.
Quenching of the Fluorescence of Mesodisubstituted Anthracene Derivatives by Anthracene, and the Formation of Mixed Photodimers—T. M. Vember. 20, 188 (1966) [20, 347 (1966)]

VERESHCHAGIN, I. K.
Temperature Dependence of the Photoluminescence of Zinc Sulfide Electroluminors—I. K. Vereshchagin and I. V. Khomyak. 20, 99 (1966) [20, 182 (1966)]

Luminescence of Polycrystalline Electroluminors with Particles of Different Diameter—I. K. Vereshchagin. 20, 382 (1966) [20, 685 (1966)]

On the Electroluminescent Properties of Individual Particles of ZnS-Cu Polycrystalline Samples—I. K. Vereshchagin. 20, 589 (1966) [20, 1066 (1966)]

VERLAN, E. M.
Investigation of the Form of the Tensor and the Temperature Dependence of Raman Scattering of Polyatomic Gas Molecules—E. M. Verlan. 20, 341 (1966) [20, 605 (1966)]

Effect of the Properties of the Intermediate State on the Raman Spectra of Gases—E. M. Verlan. 20, 447 (1966) [20, 802 (1966)]

On the Selection Rules in Raman Spectra—E. M. Verlan. 20, 508 (1966) [20, 916 (1966)]

Raman Scattering of Light by Gases in the Region of an Absorption Band—E. M. Verlan. 20, 557 (1966) [20, 1003 (1966)]

VEROLAINEN, Ya. F.
The Lifetimes of Certain Levels of Mercury and Cadmium—Ya. F. Verolainen and A. L. Osherovich. 20, 517 (1966) [20, 929 (1966)]

VISHNEVSKII, V. N.
Temperature Dependence of the Dispersion of the Refractivity of ADP and KDP Single Crystals—V. N. Vishnevskii and I. V. Stefanskii. 20, 195 (1966) [20, 357 (1966)]

VOLKOV, S. V.
Triplet-Triplet Absorption Spectra of Solid Solutions of Certain Organic Compounds—I. A. Zhmyreva, V. P. Kolobkov, and S. V. Volkov. 20, 162 (1966) [20, 303 (1966)]

VUKS, M. F.
Determination of the Optical Anisotropy of Aromatic Molecules from the Double Refraction of Crystals—M. F. Vuks. 20, 361 (1966) [20, 644 (1966)]

YAKOBSON, M. A.
Investigation of Temperature Dependence of the Radiation of CdS Single Crystals—M. A. Yakobson. 20, 40 (1966) [20, 78 (1966)]

YAROVAYA, R. G.
Quantum Absorption of Light in Copper—R. G. Yarovaya and I. N. Shklyarevskii. 20, 194 (1966) [20, 355 (1966)]

The Effect of Precipitation Rates and Annealing upon the Optical Constants of Precious Metals—I. N. Shklyarevskii, R. G. Yarovaya, V. P. Kostyuk, and L. G. Lelyuk. 20, 594 (1966) [20, 1074 (1966)]

YURACHKOVSKII, P. A.
Effect of Temperature on the Formation of Z_1 Centers in KCl–$CaCl_2$ Crystals—P. A. Yurachkovskii and P. K. Gorbenko. 20, 35 (1966) [20, 69 (1966)]

ZAITOV, F. N.
On the Ionic Mechanism of the Photothermal Decay of F Color Centers in Alkali Halide Crystal Phosphors—E. S. Dudarev, F. N. Zaitov, and Yu. L. Lukantsever. 20, 245 (1966) [20, 450 (1966)]

ZAKHARCHENYA, B. P.
Use of an Electron-Optical Light Converter for the Study of Magnetooptic Effects in Crystals in Strong Pulsed Magnetic Fields—B. P. Zakharchenya, V. L. Kreitser, L. A. Peknyi, L. M. Kanskaya, and A. I. Sibilev. 20, 406 (1966) [20, 730 (1966)]

ZAPESOCHNYI, I. P.
On the Excitation Cross Sections of 2p Levels of Argon, Krypton, and Xenon—I. P. Zapesochnyi and P. V. Feltsan. 20, 291 (1966) [20, 521 (1966)]
Effective Excitation Cross Sections of Alkali-Metal Atoms Colliding with Slow Electrons. IV. Cesium—I. P. Zapesochnyi and L. L. Shimon. 20, 421 (1966) [20, 753 (1966)]
Effective Cross Sections for the Excitation of Alkali-Metal Atoms by Slow Electron Collisions. III. Rubidium—I. P. Zapesochnyi and L. L. Shimon. 20, 525 (1966) [20, 944 (1966)]

ZARIPOV, M. M.
On the Theory of the Line Width of Electron Paramagnetic Resonance of Cu^{2+} Ions in Aqueous Solutions—K. A. Valiev and M. M. Zaripov. 20, 56 (1966) [20, 108 (1966)]

ZAVT, G. S.
Dynamics of Nonideal Crystals and a Quasimolecular Model of Impurity Center Vibrations—N. N. Kristofel and G. S. Zavt. 20, 373 (1966) [20, 669 (1966)]

ZEIF, A. P.
EPR Study of the Covalent Bond in Cu^{+2} α-Thiopicolinanilide—V. F. Anufrienko and A. P. Zeif. 20, 365 (1966) [20, 652 (1966)]

ZENKOVA, R. A.
On the Vibrational Structure of the Ground and Excited Levels of UO_2^{++} in $K_4[UO_2(CO_3)_3]$—D. S. Gorbenko-Germanov and R. A. Zenkova. 20, 467 (1966) [20, 842 (1966)]

ZHIKHAREVA, T. V.
Resonance Phenomena in the Elastic Scattering of Electrons by Helium Atoms. II—T. V. Zhikhareva. 20, 402 (1966) [20, 724 (1966)]

ZHIRNOV, N. I.
Application of the Generalized WKB Method to the Study of the Vibrational-Rotational Spectra of Diatomic Molecules. I. Vibrational-Rotational Spectrum of a Morse Oscillator—N. I. Zhirnov and A. S. Vasilevskii. 20, 121 (1966) [20, 224 (1966)]
One-Electron Rasetti Wavefunctions for States with $n-1=2$—N. I. Zhirnov. 20, 174 (1966) [20, 327 (1966)]

ZHMYREVA, I. A.
Triplet-Triplet Absorption Spectra of Solid Solutions of Certain Organic Compounds—I. A. Zhmyreva, V. P. Kolobkov, and S. V. Volkov. 20, 162 (1966) [20, 303 (1966)]

ZHOLKEVICH, G. A.
Preparation and Properties of Sublimate ZnS-Cu Electroluminor with Blue Luminescence—G. A. Zholkevich and V. P. Dudnik. 20, 378 (1966) [20, 678 (1966)]

ZIMA, V. L.
The Transfer of Electronic Excitation Energy in Naphthalene Crystals Doped with β-Methylnaphthalene, Anthracene, and Acridine. I—V. L. Zima, A. D. Kravchenko, and A. N. Faidysh. 20, 240 (1966) [20, 441 (1966)]
Diffusion of Excitons in Naphthalene and Anthracene Crystals. II—V. L. Zima and A. N. Faidysh. 20, 566 (1966) [20, 1022 (1966)]

ZNAMENSKII, V. B.
Investigations of the Dependence of the Discharge Parameters and Generating Power of the He-Ne Laser on the Hollow Cathode Diameter—V. B. Znamenskii, G. N. Buinov, and E. S. Bursakov. 20, 292 (1966) [20, 522 (1966)]

ZOLIN, V. F.
On the Mechanism of Sensitizing the Luminescence of Eu^{3+} and Tb^{3+} Ions by Organic Dyes—Ch. M. Briskina, V. F. Zolin, and M. A. Samokhina. 20, 599 (1966) [20, 1081 (1966)]

ZORINA, E. L.
The Infrared Absorption of Arsenic Monoselenide—E. L. Zorina. 20, 157 (1966) [20, 293 (1966)]

ZUBKOVA, V. S.
The Luminescence and Stimulated Emission Spectrum of CaF_2–U^{3+} Crystals—V. F. Egorova, V. S. Zubkova, A. A. Mak, and D. S. Prilezhaev. 20, 491 (1966) [20, 890 (1966)]

TABLES OF CONTENTS

VOLUME XX: JANUARY–JUNE

[Numbers in brackets refer to Russian original]

No. 1--January

Limits of Applicability of the Method of Measuring Electron Temperatures by the Relative Intensities of He I Lines—V. M. Strunnikov. 20, 1 (1966) [20, 3 (1966)]

The Afterglow of Helium in the Plasma of a High-Frequency Pulse Discharge at 77° K—P. L. Pakhomov, G. P. Reznikov, and I. Ya. Fugol. 20, 5 (1966) [20, 10 (1966)]

The Excitation of Neon Levels in a Neon-Hydrogen Discharge—V. P. Chebotaev. 20, 10 (1966) [20, 21 (1966)]

The Shift of Ar I Spectral Lines in the Plasma of a Low-Power Spark Discharge—Yanku Iova. 20, 13 (1966) [20, 27 (1966)]

Fine Structure of Bands of the SiCl Molecule—I. E. Ovcharenko and Yu. Ya. Kuzyakov. 20, 14 (1966) [20, 30 (1966)]

Electronic Spectra of 1,4-Divinylbenzene Diaryl Derivatives—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 17 (1966) [20, 36 (1966)]

Nature of the So-Called Q Branch in the Infrared Spectra of Hydrogen Halides—A. V. Iohanson and E. B. Broun. 20, 21 (1966) [20, 42 (1966)]

Infrared Absorption of Chloroform-Bromoform Solutions in the Region of the C—H Bending Vibrations—N. P. Kharchenko. 20, 24 (1966) [20, 48 (1966)]

Emission Spectra and Kinetics of the Luminescence of Organic Molecules under Conditions of Reabsorption in Triplet–Triplet Transitions—Yu. V. Naboikin, L. A. Ogurtsova, and I. D. Fil. 20, 27 (1966) [20, 53 (1966)]

Vibrational Structure of the Luminescence Spectra of Frozen Solutions of Naphthalene and Tolan—V. I. Mikhailenko, P. A. Teplyakov, V. V. Trusov, and V. M. Martynchenko. 20, 29 (1966) [20, 58 (1966)]

Spectral Study of Naphthalene Single Crystals—A. F. Prikhotko and A. F. Skorobogatko. 20, 33 (1966) [20, 65 (1966)]

Effect of Temperature on the Formation of Z_1 Centers in KCl–$CaCl_2$ Crystals—P. A. Yurachkovskii and P. K. Gorbenko. 20, 35 (1966) [20, 69 (1966)]

Color Centers in Lithium Hydride—B. L. Dvinyaninov and F. F. Gavrilov. 20, 38 (1966) [20, 74 (1966)]

Investigation of Temperature Dependence of the Radiation of CdS Single Crystals—M. A. Yakobson. 20, 40 (1966) [20, 78 (1966)]

A Spectral Investigation of the Luminescence and Internal Photoeffect of Polymerized Copper Phenylacetylide—G. I. Lashkov and V. S. Mylnikov. 20, 44 (1966) [20, 86 (1966)]

On the Polarization Effect in the Yellow Exciton Series of Cu_2O—M. I. Shmiglyuk. 20, 47 (1966) [20, 92 (1966)]

Method of Preparation and the Luminescence of Cadmium Fluoride Crystals Activated by Rare Earth Ions—N. K. Ageyeva, M. F. Dubovik, Yu. F. Rybkin, S. A. Sazonova, B. S. Skorobogatov, and O. M. Smirnova. 20, 50 (1966) [20, 96 (1966)]

Luminescence of Vitreous Halide Solutions Activated by Ions of Different Valence—M. U. Belyi and I. Ya. Kushnirenko. 20, 53 (1966) [20, 101 (1966)]

On the Theory of the Line Width of Electron Paramagnetic Resonance of Cu^{2+} Ions in Aqueous Solutions—K. A. Valiev and M. M. Zaripov. 20, 56 (1966) [20, 108 (1966)]

Method of Kinetic Equations in the Theory of Generation of Second Optical Harmonics—I. A. Maryushko and V. S. Mashkevich. 20, 61 (1966) [20, 117 (1966)]

Measurement of the Metastable Level Population of the Working Substance of a Laser—A. P. Aleksandrov, V. N. Genkin, and M. I. Kheifets. 20, 69 (1966) [20, 133 (1966)]

The Effect of Metallic Gratings on the Emission from an Active Plane-Parallel Layer—V. F. Kravchenko. 20, 67 (1966) [20, 128 (1966)]

On the Angular Distribution of Energy Emitted by a Laser—V. M. Podgaetskii, O. G. Korneeva, and A. N. Chernets. 20, 72 (1966) [20, 138 (1966)]

Determination of the Spectrum of Particles in a Disperse System from Data on Its Transmission. V. Verification of the Method with a Theoretical Model. The Case of the Almost Monodisperse System—K. S. Shifrin and A. Ya. Perelman. 20, 75 (1966) [20, 143 (1966)]

Estimation of the Efficiency of Radiation Sources in Infrared Gas Analyzers—J. Janac. 20, 80 (1966) [20, 154 (1966)]

Excitation Functions of High Energy Long-Lived States of Inert Gas Atoms—S. E. Kuprianov. 20, 85 (1966) [20, 163 (1966)]

Quantitative Investigation of the Absorption of a Lead Iodide Crystal—V. V. Sobolev. 20, 87 (1966) [20, 165 (1966)]

Absorption Spectra of PtH and PtD—V. A. Loginov. 20, 88 (1966) [20, 167 (1966)]

The Maximum Attainable Resolution of a Real Fabry-Perot Etalon—Yu. A. Ananev. 20, 89 (1966) [20, 168 (1966)]

Reduction of Rare-Earth Ions by Radiation in Fluorite-Type Crystals with Two Activators—V. A. Arkhangelskaya and P. P. Feofilov. 20, 90 (1966) [20, 169 (1966)]

Radiative Levels of the Pr^{3+} Ion in Scheelite-Type Crystals—E. G. Reut and A. I. Ryskin. 20, 91 (1966) [20, 172 (1966)]

Augmentation of the Intensity of Radiation Emitted by Low-Voltage Gallium Arsenide Diodes—Z. V. Shirokshina and E. N. Konstantinova. 20, 92 (1966) [20, 173 (1966)]

The Physicochemical Nature of the Emission of the Auer-Welsbach Mixture in Flames—M. B. Kondratenko and V. A. Sokolov. 20, 94 (1966) [20, 175 (1966)]

Absorption and Bleaching Efficiency Spectra of Spirans During Photochromic Transformations—G. I. Lashkov, A. V. Shablya, and D. N. Glebovskii. 20, 95 (1966) [20, 176 (1966)]

Monochromatization of the Radiation of a Ruby Laser with a Complex Resonator—S. M. Mamedzade. 20, 96 (1966) [20, 178 (1966)]

Fluorescence of the Thulium Ion in Complexes with Organic Addends—L. I. Kononenko and N. S. Poluektov. 20, 98 (1966) [20, 180 (1966)]

Temperature Dependence of the Photoluminescence of Zinc Sulfide Electroluminors—I. K. Vereshchagin and I. V. Khomyak. 20, 99 (1966) [20, 182 (1966)]

Ultraviolet Electroluminescence of Zinc Sulfide—Yu. V. Bochkov, A. N. Georgobiani, A. S. Gershun, L. A. Sysoev, and G. S. Chilaya. 20, 100 (1966) [20, 183 (1966)]

No. 2—February

Effect of Collision-Induced Transitions between the Sublevels of the Excited State on Depolarization of the Resonance Fluorescence of Atoms in a Magnetic Field—V. N. Rebane and T. K. Rebane. 20, 101 (1966) [20, 185 (1966)]

Determination of the Magnetic Moment of Pu^{239}—L. A. Korostyleva. 20, 105 (1966) [20, 194 (1966)]

Study of the Positive Column of a Discharge in Cadmium Vapor and Determination of Effective Cross Sections of the $6\,^3S_1$ Level—N. P. Penkin and T. P. Redko. 20, 106 (1966) [20, 197 (1966)]

Study of the Secondary Processes Due to Electronic Excitation Using the Coincidence Count Method—I. P. Bogdanova and V. D. Marusin. 20, 113 (1966) [20, 209 (1966)]

On the Theory of the Resonance Transformation of Light by Molecules with Consideration of Two Intermediate Energy Levels—V. A. Morozov and P. P. Shorygin. 20, 115 (1966) [20, 214 (1966)]

Application of the Generalized WKB Method to the Study of the Vibrational-Rotational Spectra of Diatomic Molecules. I. Vibrational-Rotational Spectrum of a Morse Oscillator—N. I. Zhirnov and A. S. Vasilevskii. 20, 121 (1966) [20, 224 (1966)]

Calculation of the Vibrational Spectra of Monogermane—Yu. I. Ponomarev. 20, 124 (1966) [20, 230 (1966)]

Effect of Hydrogen Bonding on the First and Second Derivatives of the Dipole Moment Function. The N—H Group of Diphenylamine and Diethylamine—S. Ya. Khaikin and V. M. Chulanovskii. 20, 126 (1966) [20, 234 (1966)]

Infrared Spectra and Association of Thiolic Acids—I. M. Ginzburg and L. A. Loginova. 20, 130 (1966) [20, 241 (1966)]

Study of the Infrared Absorption Spectrum of the Polymer and Monomer of Methacrylic Acid—T. V. Belopolskaya and O. N. Trapeznikova. 20, 133 (1966) [20, 246 (1966)]

Relationship between Certain Spectral Characteristics and the Reactivity of Aromatic Compounds. II. Para-Amino and Para-Bromosubstituted Benzene Derivatives. Monosubstituted Benzene Derivatives—Ya. S. Bobovich. 20, 136 (1966) [20, 252 (1966)]

Effect of Internal Asymmetry on the Optical Spectra of Transition-Metal Complexes—B. G. Vekhter. 20, 139 (1966) [20, 258 (1966)]

Spectral Study of Crystals of Monoalkylmesitylenes—G. V. Klimusheva. 20, 142 (1966) [20, 265 (1966)]

Optical Properties of F Centers in Potassium Chloride Crystals Irradiated in a Reactor—T. Sh. Davitashvili and N. G. Politov. 20, 146 (1966) [20, 272 (1966)]

Structure and Transformation of Color Centers in KCl Crystals—P. K. Gorbenko. 20, 148 (1966) [20, 276 (1966)]

Absorption and Luminescence Spectra of Gd^{3+} in MeF_2—F. A. Gilfanov, Zh. S. Dobkina, A. L. Stolov, and L. D. Livanova. 20, 152 (1966) [20, 283 (1966)]

The Infrared Absorption of Arsenic Monoselenide—E. L. Zorina. 20, 157 (1966) [20, 293 (1966)]

Optical Properties of Zinc Telluride. II. Effects of In, Ga, and Cu Impurities on the Absorption Edge—M. V. Kurik and A. V. Savitskii. 20, 159 (1966) [20, 297 (1966)]

Triplet-Triplet Absorption Spectra of Solid Solutions of Certain Organic Compounds—I. A. Zhmyreva, V. P. Kolobkov, and S. V. Volkov. 20, 162 (1966) [20, 303 (1966)]

Some Results of a Study of Electroluminescent Zinc Sulfide Single Crystals—V. M. Korsun. 20, 164 (1966) [20, 308 (1966)]

Open Asymmetric Spherical Resonators for Lasers—E. E. Fradkin. 20, 168 (1966) [20, 316 (1966)]

Effect of Configuration of a Resonator on the Intensity of Laser Radiation—V. N. Kuryatov and E. E. Fradkin. 20, 172 (1966) [20, 324 (1966)]

One-Electron Rasetti Wavefunctions for States with $n - l = 2$—N. I. Zhirnov. 20, 174 (1966) [20, 327 (1966)]

On the Calculation of the Spectrum of Sm^{2+} in SrF_2—V. V. Druzhinin and A. P. Khaimenov. 20, 176 (1966) [20, 330 (1966)]

The Excitation of Thallium Atoms by Interaction with Ammonia Molecules—T. L. Andreeva, V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 178 (1966) [20, 333 (1966)]

Observation of the Faraday Effect in Interference Light Filters—V. K. Miloslavskii and E. I. Titova. 20, 179 (1966) [20, 335 (1966)]

Optical Absorption of Ag_2O in the Infrared Region of the Spectrum—F. I. Kreingold. 20, 180 (1966) [20, 336 (1966)]

The Absorption Spectrum of Neutron-Irradiated Silicon in the Near Infrared—V. M. Kirillova and E. N. Lotkova. 20, 181 (1966) [20, 337 (1966)]

Current-Voltage Characteristics of Electroluminescent ZnS-Cu Single Crystals—U. D. Dzhuzeev and B. G. Chernyavskii. 20, 183 (1966) [20, 339 (1966)]

Luminescence Spectra of Some Fluorinated and Spatially Branched Europium and Terbium β-Diketonates—O. L. Lebedev and A. V. Michurina. 20, 184 (1966) [20, 340 (1966)]

Experimental Determination of the Light-Amplification Coefficient in a Gaseous Discharge—I. V. Cheremiskin, V. S. Makeev, and I. V. Sobolev. 20, 185 (1966) [20, 342 (1966)]

Nonlinear Quenching of the Luminescence of Ruby under Intense Excitation—N. A. Tolstoi and A. P. Abramov. 20, 187 (1966) [20, 345 (1966)]

Quenching of the Fluorescence of Mesodisubstituted Anthracene Derivatives by Anthracene, and the Formation of Mixed Photodimers—T. M. Vember. 20, 188 (1966) [20, 347 (1966)]

The Photoionization of Atoms in Coherent States—V. S. Letokhov. 20, 190 (1966) [20, 349 (1966)]

The Dipole Moment of the $ClH_2C\text{-}CH_2F$ Molecule—I. A. Mukhtarov. 20, 191 (1966) [20, 351 (1966)]

Microwave Spectrum of the $F_2HC\text{-}CH_2F$ Molecule in Excited Torsional-Vibrational States—I. A. Mukhtarov. 20, 192 (1966) [20, 352 (1966)]

The Optical Reflection of Single Crystals of GaS and GaSe—N. A. Gasanova and G. A. Akhundov. 20, 193 (1966) [20, 353 (1966)]

Quantum Absorption of Light in Copper—R. G. Yarovaya and I. N. Shklyarevskii. 20, 194 (1966) [20, 355 (1966)]

Temperature Dependence of the Dispersion of the Refractivity of ADP and KDP Single Crystals—V. N. Vishnevskii and I. V. Stefanskii. 20, 195 (1966) [20, 357 (1966)]

Variation in the Degree of Polarization and Luminescence Decay Rate of the R Lines of Ruby under Strong Excitation—T. K. Razumova. 20, 197 (1966) [20, 360 (1966)]

Distribution of Population Inversion Across an He-Ne Laser Discharge—Yu. V. Troitskii and V. P. Chebotaev. 20, 199 (1966) [20, 362 (1966)]

Optical-Acoustical Receiver for the Centimeter-Wave Range—V. L. Rudin. 20, 200 (1966) [20, 364 (1966)]

Chemiluminescence in Solutions. III. The Effect of Additives Which Are Distinguished by the Height of Their Electronic Levels—V. A. Belyakov and R. F. Vasilyev. 20, 201 (1966) [20, 365 (1966)]

Absorption Coefficients of Nitrocellulose and Polystyrene in the 8–410 Å Region of Ultrasoft X-Ray Radiation—A. P. Lukirskii, V. A. Fomichev, and I. A. Brytov. 20, 202 (1966) [20, 366 (1966)]

Photoionization Absorption of Ar, Ze, Alcohol, and Methylal in the 7–44 Å Wavelength Range—A. P. Lukirskii, I. A. Brytov, and S. A. Gribovskii. 20, 203 (1966) [20, 368 (1966)]

Change in Temperature of a Medium under the Action of a Laser Pulse—V. N. Rudenko. 20, 204 (1966) [20, 370 (1966)]

Luminescence of Eu^{3+} in Cadmium Fluoride Crystals—M. F. Dubovik, A. I. Promoskal, and B. S. Skorobogatov. 20, 205 (1966) [20, 371 (1966)]

Shadow Projections of a Spark in Air Occurring When Laser Radiation Is Brought to Focus—G. M. Malyshev, G. V. Ostrovskaya, and T. Ya. Chelidze. 20, 207 (1966) [20, 374 (1966)]

No. 3—March

Calculation of the Oscillator Strengths of Multiplets of the Sharp and Diffuse Series in the Spectra of the Aluminum, Gallium, Indium, and Thallium Atoms—P. F. Gruzdev. 20, 209 (1966) [20, 377 (1966)]

The Concentration of Normal Atoms in a Pulsed Discharge in Metallic Vapors—V. S. Egorov, V. N. Skrebov, and A. M. Shukhtin. 20, 211 (1966) [20, 382 (1966)]

Plasma Diagnostics Based on the Self-Reversed Contours of Spectral Lines Emitted by Inhomogeneous Layers—G. G. Ilin and I. S. Fishman. 20, 214 (1966) [20, 387 (1966)]

Computation of $n \rightarrow \pi^*$ Transitions by the Molecular Orbital Method—V. G. Plotnikov. 20, 217 (1966) [20, 394 (1966)]

Quantum-Mechanical Calculation of Continuous Absorption Coefficients for Some Components of Intensely Heated Air—A. V. Ivanova and S. A. Solodchenkova. 20, 220 (1966) [20, 399 (1966)]

A Specialized Parameter System for Computing the Electronic Spectra of Molecules with C–C, C–N, and C–O Bonds, Using the Simple Molecular Orbital Method—A. I. Finkelshtein. 20, 224 (1966) [20, 408 (1966)]

The Effect of Indifferent Substances on the Electronic Absorption Spectra of an Organic Cation—V. V. Palchevskii and L. A. Polyanskaya. 20, 227 (1966) [20, 415 (1966)]

Determination of the Concentration of Organic Molecules in the Triplet State during Excitation with Fast Electrons—M. V. Alfimov, N. Ya. Buben, A. I. Pristupa, and V. N. Shamshev. 20, 232 (1966) [20, 424 (1966)]

Far Infrared Absorption by Atmospheric Water Vapor—N. I. Furashov. 20, 234 (1966) [20, 427 (1966)]

The Effect of the Solvent on the Out-of-Plane Deformation Vibrations of CH in Certain Aromatic Compounds—P. A. Bazhulin and A. V. Chekunov. 20, 238 (1966) [20, 436 (1966)]

The Transfer of Electronic Excitation Energy in Naphthalene Crystals Doped with β-Methylnaphthalene, Anthracene, and Acridine. I—V. L. Zima, A. D. Kravchenko, and A. N. Faidysh. 20, 240 (1966) [20, 441 (1966)]

On the Ionic Mechanism of the Photothermal Decay of F Color Centers in Alkali Halide Crystal Phosphors—E. S. Dudarev, F. N. Zaitov, and Yu. L. Lukantsever. 20, 245 (1966) [20, 450 (1966)]

Kinetics of the Phototransformation of F Centers into F' Centers in Alkali Halide Crystals—P. K. Gorbenko. 20, 247 (1966) [20, 453 (1966)]

Absorption and Luminescence Spectra of NaI and NaI(Tl) at Low Temperatures. II—V. I. Vaidanich. 20, 250 (1966) [20, 459 (1966)]

Low Frequency Electroluminescence of a ZnS-Cu, Al Phosphor—L. R. Rabotkina and P. E. Ramazanov. 20, 254 (1966) [20, 467 (1966)]

On the Theory of a Gas Laser in a Magnetic Field—M. I. Dyakonov and V. I. Perel. 20, 257 (1966) [20, 472 (1966)]

Measurement of the Amplification Coefficient of an Excited Medium by the Intensity of Luminescence—D. E. Burlankov and A. V. Rezvov. 20, 262 (1966) [20, 481 (1966)]

Oscillator Strengths of Some Cu I and Ag I Spectral Lines—I.-Yu. Yu. Slavenas. 20, 264 (1966) [20, 485 (1966)]

Luminescence of Dysprosium-Activated Glasses—G. O. Karapetyan. 20, 265 (1966) [20, 487 (1966)]

On the Theory of the Absorption Spectrum of Ruby in the Metastable State—D. T. Sviridov. 20, 267 (1966) [20, 488 (1966)]

On Nonlinear Losses in Powerful Lasers—B. P. Kirsanov and A. S. Selivanenko. 20, 268 (1966) [20, 490 (1966)]

On the Theory of Pulsations in Secondary Emission—V. A. Morozov. 20, 269 (1966) [20, 491 (1966)]

Fluorescence of NO during Photodissociation of N_2O under the Effect of Vacuum Ultraviolet Radiation—N. Ya. Dodonova. 20, 271 (1966) [20, 493 (1966)]

On a Possible Theoretical Interpretation of Nonlinear Quenching—N. A. Tolstoi and A. P. Abramov. 20, 273 (1966) [20, 496 (1966)]

High-Frequency Electroluminescence of Polycrystalline Gallium Phosphide—Ya. A. Oksman, V. N. Smirnov, A. D. Smirnova, and D. N. Tretyakov. 20, 275 (1966) [20, 499 (1966)]

Regenerative Optical Helium-Neon Amplifier—V. V. Lebedeva, A. I. Odintsov, I. V. Lebedev, V. M. Andriyakhin, E. S. Gudovich, and I. P. Ponomareva. 20, 277 (1966) [20, 501 (1966)]

Q Switching of a Ruby-Laser Resonator with the Aid of Clearing Substances of the Phthalocyanine Series—Yu. M. Gryaznov, O. L. Lebedev, and A. A. Chastov. 20, 278 (1966) [20, 503 (1966)]

On the Manifestation of Lines and Background in the Quasi-Line Phosphorescence Spectrum of Quinoline in Paraffins at 77°K—Kh. I. Mamedov and R. Z. Laipanov. 20, 280 (1966) [20, 505 (1966)]

Q Switching of Lasers by KS-19 Filters—M. P. Lisitsa, N. R. Kulish, V. I. Geets, and P. N. Koval. 20, 281 (1966) [20, 508 (1966)]

Determination of Oscillator Strengths of the Resonance Lines of Xenon—G. I. Chashchina and E. Ya. Shreider. 20, 283 (1966) [20, 511 (1966)]

Two-Quantum Absorption Observed in EPR of the Mn^{2+} Ion in the ZnS-Mn Phosphor—G. E. Arkhangelskii. 20, 284 (1966) [20, 513 (1966)]

On the Resonance Absorption of Monochromatic Radiation in a System with an Intermediate Energy Level—V. E. Khartsiev. 20, 285 (1966) [20, 514 (1966)]

On the Spectral Composition of Generated Radiation in the Case of Nonlinear Optical Phenomena—V. L. Strizhevskii. 20, 287 (1966) [20, 516 (1966)]

Absorption and Luminescence of Divalent Samarium in Fluoroberyllate Glasses—G. T. Petrovskii, P. P. Feofilov, and G. A. Tsurikova. 20, 289 (1966) [20, 519 (1966)]

On the Excitation Cross Sections of 2p Levels of Argon, Krypton, and Xenon—I. P. Zapesochnyi and P. V. Feltsan. 20, 291 (1966) [20, 521 (1966)]

Investigations of the Dependence of the Discharge Parameters and Generating Power of the He-Ne Laser on the Hollow Cathode Diameter—V. B. Znamenskii, G. N. Buinov, and E. S. Bursakov. 20, 292 (1966) [20, 522 (1966)]

Two-Photon Sensitized Photodecomposition of Tertiary Butanol at 77°K—V. V. Rylkov, V. E. Kholmogorov, and A. N. Terenin. 20, 294 (1966) [20, 524 (1966)]

Triple Optical Resonance in BaF_2-Er^{3+} Crystals—V. V. Ovsyankin and P. P. Feofilov. 20, 296 (1966) [20, 526 (1966)]

On a Special Feature of the Application of the WKB Method—D. I. Mirovitskii and I. F. Budagyan. 20, 297 (1966) [20, 528 (1966)]

CaF_2-Sm^{2+} Crystal Laser Excited by a Ruby Laser—V. K. Konyukhov, V. M. Marchenko, and A. M. Prokhorov. 20, 299 (1966) [20, 531 (1966)]

Study of the Singlet-Triplet Transitions in Certain Charge Transfer Complexes Using EPR—V. S. Grechishkin. 20, 300 (1966) [20, 532 (1966)]

Electrooptics of Bacteria and Spontaneous Polarization of the Water Adsorbed by Bacteria and Proteins—A. A. Spartakov, N. A. Tolstoi, and A. A. Trusov. 20, 301 (1966) [20, 535 (1966)]

Spectra of Multiply Ionized Atoms of Sulfur S IX, S X in the Region 175-265 Å—E. Ya. Kononov. 20, 303 (1966) [20, 537 (1966)]

Absolute Effective Cross Sections for Sensitized Fluorescence of Mercury and Thallium Vapors—E. K. Kraulinya and A. E. Lezdin. 20, 304 (1966) [20, 539 (1966)]

New Infrared Polarizing Textures—G. I. Distler, A. V. Kotov, E. I. Kortukova, and V. N. Lebedeva. 20, 306 (1966) [20, 541 (1966)]

Note on Multiwave Cytophotometry—A. I. Sherudilo. 20, 307 (1966) [20, 543 (1966)]

No. 4—April

Hyperfine and Isotope Structure in the Plutonium Spectrum and Its Classification—L. A. Korostyleva and A. R. Striganov. 20, 309 (1966) [20, 545 (1966)]

The Influence of Impurities on the Concentration of Thallium Atoms in the Metastable State—V. A. Dudkin, V. I. Malyshev, and V. N. Sorokin. 20, 313 (1966) [20, 554 (1966)]

Spectroscopic and Probe Investigation of a Contracted Discharge Column. I—Yu. B. Golubovskii, Yu. M. Kagan, and R. I. Lyagushchenko. 20, 317 (1966) [20, 561 (1966)]

Excitation Characteristics of the Swann Bands of C_2 in Streams of Vapors of Metals and Organic Compounds—D. E. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 20, 320 (1966) [20, 568 (1966)]

Line Intensity Factors in Electronic Spectra of Diatomic Molecules—P. L. Rubin. 20, 325 (1966) [20, 576 (1966)]

Determination of the Electronic Transition Frequency in Continuous Absorption and Emission Spectra—V. P. Klochkov and S. M. Korotkov. 20, 328 (1966) [20, 582 (1966)]

Relative Positions of ($\pi\pi^*$) and ($n\pi^*$) States of Molecules and Their Optical Properties. I. The Effect of the Bond Length of Conjugated Bonds on the Relative Positions of ($n\pi^*$) and ($\pi\pi^*$) States—V. G. Plotnikov. 20, 332 (1966) [20, 589 (1966)]

Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. XI. Molecular Spectra Corresponding to Different Types of Electronic Transitions—N. G. Bakhshiev. 20, 335 (1966) [20, 594 (1966)]

Allowance for Mechanical Anharmonicity in the Calculation of Infrared Absorption Band Intensitites and Electrooptical Parameters—V. N. Khlebnikova, I. F. Kovalev, and V. P. Morozov. 20, 339 (1966) [20, 601 (1966)]

Investigation of the Form of the Tensor and the Temperature Dependence of Raman Scattering of Polyatomic Gas Molecules—E. M. Verlan. 20, 341 (1966) [20, 605 (1966)]

On the Use of Effective Kinematic Coefficients for the Calculation of Anharmonicity in Molecular Vibrations. II. Calculation of Overtones. Certain Generalizations—A. Ya. Tsaune and V. P. Morozov. 20, 347 (1966) [20, 616 (1966)]

Relationship Between the Observed and True Absorption Spectra of Molecules in a Condensed Medium. V. Infrared Absorption Bands of Chloroform and Carbon Tetrachloride in Solutions (740–810 cm^{-1})—V. S. Libov, O. P. Girin, and N. G. Bakhshiev. 20, 350 (1966) [20, 623 (1966)]

Vibrational Spectra of Ethylchlorosilanes. II. Ethylmonochlorosilane—S. E. Rudakova, T. F. Tulyakova, and Yu. A. Pentin. 20, 353 (1966) [20, 629 (1966)]

Vibrational Spectra of Rotational Isomers of Methallyl Chloride—Yu. A. Pentin and E. V. Morozov. 20, 357 (1966) [20, 637 (1966)]

Determination of the Optical Anisotropy of Aromatic Molecules from the Double Refraction of Crystals—M. F. Vuks. 20, 361 (1966) [20, 644 (1966)]

EPR Study of the Covalent Bond in Cu^{+2} α-Thiopicolinanilide—V. F. Anufrienko and A. P. Zeif. 20, 365 (1966) [20, 652 (1966)]

Concerning the Theory of Multiphonon Radiationless Transitions between Local States of Different Multiplicity. I—Yu. E. Perlin, V. A. Kovarskii, and B. S. Tsukerblat. 20, 367 (1966) [20, 657 (1966)]

The Raman Analog of Electronic and Nuclear Spin Induction and Echo—R. V. Shubina. 20, 369 (1966) [20, 661 (1966)]

Dynamics of Nonideal Crystals and a Quasimolecular Model of Impurity Center Vibrations—N. N. Kristofel and G. S. Zavt. 20, 373 (1966) [20, 669 (1966)]

Nature of the Fine Structure of Edge Absorption Lines of Cadmium Selenide and Cadmium Sulfide Monocrystals—V. V. Sobolev. 20, 375 (1966) [20, 673 (1966)]

Preparation and Properties of Sublimate ZnS-Cu Electroluminor with Blue Luminescence—G. A. Zholkevich and V. P. Dudnik. 20, 378 (1966) [20, 678 (1966)]

Luminescence of Polycrystalline Electroluminors with Particles of Different Diameter—I. K. Vereshchagin. 20, 382 (1966) [20, 685 (1966)]

Determination of the Spectrum of Particles in a Disperse System Using Data on Its Transparency. VI—K. S. Shifrin, A. Ya. Perelman, and V. G. Bakhtiyarov. 20, 386 (1966) [20, 692 (1966)]

On the Reflection of Light from Rough Surfaces—V. K. Polyanskii and V. P. Rvachev. 20, 391 (1966) [20, 701 (1966)]

Resonance Absorption of Radiation in an Inhomogeneous Medium with Variable Sign of the Coefficient of Absorption V. I. Borodulin. 20, 395 (1966) [20, 709 (1966)]

An Anisotropic Reflector for Lasers—Yu. I. Kruzhilin. 20, 397 (1966) [20, 713 (1966)]

Computation of the Frequency-Contrast Characteristic—G. G. Slyusarev. 20, 398 (1966) [20, 716 (1966)]

Resonance Phenomena in the Elastic Scattering of Electrons by Helium Atoms. II—T. V. Zhikhareva. 20, 402 (1966) [20, 724 (1966)]

Effect of the Brightness Level on the Addition Functions of Spectral Colors—N. I. Speranskaya. 20, 404 (1966) [20, 727 (1966)]

Use of an Electron-Optical Light Converter for the Study of Magnetooptic Effects in Crystals in Strong Pulsed Magnetic Fields—B. P. Zakharchenya, V. L. Kreitser, L. A. Peknyi, L. M. Kanskaya, and A. I. Sibilev. 20, 406 (1966) [20, 730 (1966)]

Application of the Prism Method for Investigating Transparent Media with a Refractive Index Gradient—L. V. Kovalskii and V. K. Polyanskii. 20, 408 (1966) [20, 733 (1966)]

Excitation of Helium Levels During Optical Pumping—V. N. Lisitsyn and V. P. Chebotaev. 20, 409 (1966) [20, 734 (1966)]

Nonequilibrium Population of Hyperfine Sublevels of the $6\,^3S_1$ Term in Cadmium—Yu. I. Turkin. 20, 411 (1966) [20, 736 (1966)]

Measurement of the Quantum Yields of Photochromic Reactions of Spiropyrans in Polymeric Media Using the Luminescent Method—A. V. Shablya, K. B. Demidov, and Yu. N. Polyakov. 20, 412 (1966) [20, 738 (1966)]

Determination of the $2s_2$ Level Population and the Probability of the $2s_2$–$2p_4$ Transition in Neon—V. I. Donin and V. P. Chebotaev. 20, 414 (1966) [20, 740 (1966)]

On the Binary Centers Produced by Light in Uranyl Salts—N. A. Tolstoi, A. P. Abramov, and I. N. Abramova. 20, 415 (1966) [20, 742 (1966)]

No. 5—May

Polarization of the 5016 Å Helium Line Excited by Electron Collision—V. I. Perel and V. L. Fedorov. 20, 417 (1966) [20, 745 (1966)]

Polarization of Helium Spectral Lines Excited by Electron Collisions—V. L. Fedorov and L. E. Golovanevskaya. 20, 419 (1966) [20, 750 (1966)]

Effective Excitation Cross Sections of Alkali-Metal Atoms Colliding with Slow Electrons. IV. Cesium—I. P. Zapesochnyi and L. L. Shimon. 20, 421 (1966) [20, 753 (1966)]

Isotope Shifts of Resonance Lines in the Spectrum of Ytterbium—Yu. Chaiko. 20, 424 (1966) [20, 760 (1966)]

A Study of the Quasi-Line Spectra of 1,2-Benzanthracene and Its Methyl Derivatives. I. The Quasi-Line Luminescence and Absorption Spectra of 1,2-Benzanthracene at 77°K—N. A. Fenina. 20, 428 (1966) [20, 768 (1966)]

Experimental and Theoretical Study of Absolute Intensities in the Infrared Spectra of Gaseous Hydrocarbons. VI.—A. G. Finkel. 20, 432 (1966) [20, 773 (1966)]

Effect of Surroundings on Spontaneous Radiation by Molecules—A. A. Korsunskii. 20, 435 (1966) [20, 780 (1966)]

Universal Intermolecular Interactions and Their Effect on the Positions of the Electron Spectra of Molecules in Two-Component Solutions. XII. The Dependence of the Absorption and Fluorescence Spectra of Phthalimide Derivatives on the Temperature and Aggregation State of the Solvent (+20 to −196°C)—N. G. Bakhshiev and I. V. Piterskaya. 20, 437 (1966) [20, 783 (1966)]

Spectral Investigation of Urea Crystals in Polarized Light—A. V. Nefedov and O. V. Fialkovskaya. 20, 445 (1966) [20, 798 (1966)]

Effect of the Properties of the Intermediate State on the Raman Spectra of Gases—E. M. Verlan. 20, 447 (1966) [20, 802 (1966)]

Effect of Collective Interactions on Optical Line Shapes and Energy Transfer Processes—U. Kh. Kopvillem and V. R. Nagibarov. 20, 450 (1966) [20, 809 (1966)]

Interaction Between Impurity Particles by Way of the Phonon Field—V. R. Nagibarov and I. A. Nagibarova. 20, 453 (1966) [20, 814 (1966)]

Wavefunctions of Frenkel Excitons in Cu_2O Crystals. I—N. V. Starostin. 20, 457 (1966) [20, 823 (1966)]

Investigation of the Temperature Behavior of the 1085 cm^{-1} Line-Width in Calcite—I. A. Gorbatov and B. M. Nosenko. 20, 460 (1966) [20, 828 (1966)]

The Formation of Color Centers in NaI and NaBr Crystals—R. I. Didyk, M. V. Pashkovskii, and N. A. Tsal. 20, 462 (1966) [20, 832 (1966)]

Spectral Distribution of the Luminescence Yield of Ruby—Z. L. Morgenshtern and V. V. Neustruev. 20, 464 (1966) [20, 837 (1966)]

On the Vibrational Structure of the Ground and Excited Levels of UO_2^{2+} in $K_4[UO_2(CO_3)_3]$—D. S. Gorbenko-Germanov and R. A. Zenkova. 20, 467 (1966) [20, 842 (1966)]

Calculation of the Luminescence Amplified in a Polished Laser Rod—A. M. Samson and L. A. Kotomtsieva. 20, 470 (1966) [20, 848 (1966)]

Study of the Coherence of Ruby Laser Emission in Peaks—I. I. Dukhopel, T. V. Simonenko, and I. E. Urnis. 20, 473 (1966) [20, 853 (1966)]

Electroluminescence of Zinc Sulfide as a Recombination Controlled by an Electric Field—F. I. Kolomoitsev and V. M. Korsun. 20, 476 (1966) [20, 859 (1966)]

Polarization Effects in the Electroluminescence of Anodic Oxide Films—M. I. Eidelberg. 20, 479 (1966) [20, 866 (1966)]

Method for Computing the Refractive Indices of Optical Materials in the Spectral Range 0.365–2.6 μ—V. N. Polukhin. 20, 483 (1966) [20, 874 (1966)]

Calculation of an Uncemented Two-Lens System with One Reflecting Surface—D. V. Gavrilov. 20, 486 (1966) [20, 881 (1966)]

The Luminescence and Stimulated Emission Spectrum of CaF_2–U^{3+} Crystals—V. F. Egorova, V. S. Zubkova, A. A. Mak, and D. S. Prilezhaev. 20, 491 (1966) [20, 890 (1966)]

Effect of the Asymmetry of the Interference Layer on the Contrast of Fizeau Fringes Produced by Multiple-Beam Interference in Reflected Light—K. F. Fulinska. 20, 495 (1966) [20, 898 (1966)]

Investigation of the Luminescence of a Mixture of Zinc and Mercury Vapors in a High-Frequency Discharge. O. P. Bochkova. 20, 497 (1966) [20, 901 (1966)]

The Effect of Stimulated Radiation on the Transmission of Solutions of Some Organic Dyes—L. S. Dovger, B. A. Ermakov, A. V. Lukin, and L. P. Shklover. 20, 499 (1966) [20, 903 (1966)]

Application of the Ray Method to the Calculation of the Natural Frequencies of Multiple-Mirror Resonators—V. S. Buldyrev and M. M. Popov. 20, 500 (1966) [20, 905 (1966)]

Measurement of the Amplification of Coherent Optical Radiation in a Tube with a Helium–Neon Mixture—A. P. Skibarko and Yu. V. Prichko. 20, 502 (1966) [20, 908 (1966)]

On the Aperture of a Fourier Spectrometer Based on a Polarization Interferometer—W. H. Steel and L. Mertz. 20, 503 (1966) [20, 910 (1966)]

The Dependence of the Infrared Spectra of Thymol on the State of Aggregation—A. I. Mardayeva and A. V. Bulgadayev. 20, 505 (1966) [20, 912 (1966)]

Rate and Cross Section of Excitation of the $3s_2$ Level of Neon by $2\,^1S$ Metastable Helium Atoms During Discharges in a He–Ne Mixture—V. P. Chebotaev and L. S. Vasilenko. 20, 505 (1966) [20, 913 (1966)]

On the Competition of Transitions and the Achievement of Laser Action at 6401 Å Without a Dispersing Prism in the Resonator of a He–Ne Laser—L. S. Vasilenko and V. P. Chebotaev. 20, 507 (1966) [20, 915 (1966)]

On the Selection Rules in Raman Spectra—E. M. Verlan. 20, 508 (1966) [20, 916 (1966)]

Calculation of the Vibrational Spectrum of Nitrobenzene—V. A. Shlyapochnikov and V. G. Osipov. 20, 509 (1966) [20, 917 (1966)]

Optical Characteristics of Monocrystals of Lanthanum–Sodium Molybdate—G. F. Bakhshieva, V. E. Karapetyan, A. M. Morozov. 20, 510 (1966) [20, 918 (1966)]

Zinc Vapor Laser—A. S. Tibilov. 20, 511 (1966) [20, 920 (1966)]

Theoretical Study of Control of Generation in a Ruby Laser Using an Ultrasonic Traveling Wave Diffraction Modulator—A. G. Pokrovskii and M. A. Filippova. 20, 512 (1966) [20, 921 (1966)]

Experimental Investigation of the Control of Ruby Laser Generation by Means of Diffraction Modulation with a Traveling Ultrasonic Wave—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 20, 514 (1966) [20, 924 (1966)]

Alexander Nikolaevevich Terenin (on his 70th Birthday). 20, 515 (1966) [20, 927 (1966)]

No. 6—June

The Lifetimes of Certain Levels of Mercury and Cadmium—Ya. F. Verolainen and A. L. Osherovich. 20, 517 (1966) [20, 929 (1966)]

Adiabatic Theory of the Shape of Spectral Lines in Gases in Terms of the Hard Sphere Model—A. I. Burshtein and Yu. I. Naberukhin. 20, 521 (1966) [20, 936 (1966)]

Effective Cross Sections for the Excitation of Alkali-Metal Atoms by Slow Electron Collisions. III. Rubidium—I. P. Zapesochnyi and L. L. Shimon. 20, 525 (1966) [20, 944 (1966)]

Negative Absorption in the Case of Nonequilibrium Distribution of Molecules with Respect to Velocity—V. A. Dudkin. 20, 528 (1966) [20, 950 (1966)]

Absorption Spectrum of Condensed Oxygen in the 1.26–0.3 μ Region—V. I. Dianov-Klokov. 20, 530 (1966) [20, 954 (1966)]

On the Cavity Losses on Mode Selection in the Stimulated Emission of Nd^{3+} in Glass—M. P. Vanyukov, V. I. Isaenko, L. A. Luizova, and O. A. Shorokhov. 20, 535 (1966) [20, 963 (1966)]

Electronic Spectra of Diaryl Derivatives of 1,4-Divinylbenzene. II—R. N. Nurmukhametov, L. A. Mileshina, L. Ya. Malkes, and L. V. Shubina. 20, 538 (1966) [20, 970 (1966)]

Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. XIII. Physicochemical Properties of Some Molecular Complexes—N. G. Bakhshiev. 20, 542 (1966) [20, 976 (1966)]

Combining States in the Electronic-Vibrational Transitions of Complex Molecules and the Electronic Transition Frequency—V. A. Tolkachev. 20, 545 (1966) [20, 982 (1966)]

On the Conformity of the Semiclassical and Quantum-Mechanical Theories of the Vibrational Raman Scattering of Light by Molecules—F. A. Savin. 20, 549 (1966) [20, 989 (1966)]

On the Theory of the Induced Raman Effect—V. N. Lugovoi 20, 553 (1966) [20, 996 (1966)]

Raman Scattering of Light by Gases in the Region of an Absorption Band—E. M. Verlan. 20, 557 (1966) [20, 1003 (1966)]

Vibrational Spectra of Ferrocenes. II. Calculation of the Normal Vibrations of the Methylcyclopentadienyl Ring of 1,1′-Dimethylferrocene—L. S. Mayants and G. B. Shaltuper. 20, 560 (1966) [20, 1010 (1966)]

Vibrational Spectrum of the Acenaphthene Single Crystal in Light Polarized in Three Crystallographic Planes—A. V. Nefedov and O. V. Fialkovskaya. 20, 563 (1966) [20, 1016 (1966)]

Diffusion of Excitons in Naphthalene and Anthracene Crystals. II—V. L. Zima and A. N. Faidysh. 20, 566 (1966) [20, 1022 (1966)]

Optical Properties of Platinocyanide Compounds. III. Concentrational Dependence of the Luminescence of Frozen Solutions—A. M. Tkachuk and N. A. Tolstoi. 20, 570 (1966) [20, 1030 (1966)]

Excited Absorption Spectrum of Ruby—A. M. Bonch-Bruevich, T. K. Razumova, and Ya. A. Imas. 20, 575 (1966) [20, 1040 (1966)]

Piezospectroscopic Study of the Diagram of Levels and Transitions in Sm^{2+} Ions in Alkali-Earth Fluoride Crystals—A. A. Kaplyanskii and A. K. Przhevuskii. 20, 577 (1966) [20, 1045 (1966)]

X-Ray Luminescence and Optical Burst in the Phosphor KI-Tl—I. A. Parfianovich and V. G. Krongauz. 20, 584 (1966) [20, 1058 (1966)]

Spectral Distribution of the Relative Quantum Yield of Photoluminescence of Polycrystalline Cadmium Sulfide Films at 77°K—K. V. Shalimova, V. N. Khirin, and O. I. Korolev. 20, 587 (1966) [20, 1063 (1966)]

On the Electroluminescent Properties of Individual Particles of ZnS-Cu Polycrystalline Samples—I. K. Vereshchagin. 20, 589 (1966) [20, 1066 (1966)]

The Effect of Precipitation Rates and Annealing upon the Optical Constants of Precious Metals—I. N. Shklyarevskii, R. G. Yarovaya, V. P. Kostyuk, and L. G. Lelyuk. 20, 594 (1966) [20, 1074 (1966)]

Use of the Diffraction from a Slit for Plotting the Characteristic Curve of a Photoemulsion—L. A. Luizova and O. A. Shorokhov. 20, 596 (1966) [20, 1076 (1966)]

Cross Sections of Inelastic Processes in the Helium-Neon Laser—I. M. Beterov and V. P. Chebotaev. 20, 597 (1966) [20, 1078 (1966)]

On the Mechanism of Sensitizing the Luminescence of Eu^{3+} and Tb^{3+} Ions by Organic Dyes—Ch. M. Briskina, V. F. Zolin, and M. A. Samokhina. 20, 599 (1966) [20, 1081 (1966)]

Temperature Effects in the Ne-He Laser—S. A. Gonchukov, G. A. Ermakov, G. A. Mikhnenko, and E. D. Protsenko. 20, 601 (1966) [20, 1083 (1966)]

On the Population of Hydrogen Levels in the Argon-Hydrogen Plasma Jet—V. M. Goldfarb, E. V. Ilyina, I. E. Kostygova, G. A. Lukyanov, and V. A. Silantyev. 20, 602 (1966) [20, 1085 (1966)]

The Generation of Laser Action in the 4f–3d Transitions of Neon by Optical Pumping of a He-Ne Discharge with a Helium Lamp—V. N. Lisitsyn and V. P. Chebotaev. 20, 603 (1966) [20, 1087 (1966)]

Determination of the Lifetime of the $2p^53p(2p_4)$ State of Neon —T. Krupenikova and M. Chaika. 20, 604 (1966) [20, 1088 (1966)]

Spectral Detection of Color Centers on the Surface of Titanium Dioxide due to the Adsorption of Electron-Donor Molecules—Yu. D. Pimenov and V. E. Kholmogorov. 20, 605 (1966) [20, 1090 (1966)]
